Subject: Precis and Composition

Q. No: 02

Precis

Politicians behave unparallely as per their claim about integrity. They are using exaggerated verbosity, but nothing in their actions. When a person ask questions about their the difference between their speeches and actions. He is left with ambiguity through their linguistic dexterity. Moreover, they make promises in elections and feel away as the ballot papers are counted. They mask theirself like a character in the governance theater. Sometimes, they shed the teass of crocodile and sometimes seem energetic. So, politicians of these days seems less like to serve the people and more about correcting their performance.

Title: Politicians: Unparallel
Behavior.

Q. NO: 3

Comprehension

Ans. No: 01

It can be inferred about the environmental impact of renewable energy production compared to traditional fossil fuels. Renewable energy generation is a resource intensive process which left tremendous footprint. For example solar panels are formed from the rare earth elements, which required mining. Wind turbines are made from steel acquired from the earth. During excavations, it generates significant greenhouse gasses into the atmosphere.

Ans. No: 02

The electric vehicles (EVs) are not enough ~~to~~ environmental friendly. Because, batteries in it made of rare earth elements; for its excavation require intensive mining. Moreover, for recharging batteries require electricity made of fossil fuels. Similarly, the disposal of batteries create toxic gasses and contaminated the environment. Therefore, EVs are not enough environment friendly as per its predictions.

(3)

Ans. No: 03

The challenge associated with the disposal of renewable energy systems after the end of their lifespan is that their improper recycling leads to toxic wastes.

Ans. No: 04

The article suggest that renewable energy is not entirely pollution-free during its operational phase. Because, ita recharges from from the fossil fuels, that is detrimental for the environment. Moreover, it is formed from lithium and cobalt both are harm for human.

Ans. NO: 05

The article propose addressing the limitations of renewable energy. First of all renewable energy materials are formed from the ~~earth~~ rare earth elements which needs excavation. Moreover, its recharging require electricity made of fossile fuels. Finally th recycling of th disposal create contamination and toxicity in the environment.

Q. Nos 07

Translation from Urdu into English

Some students, preparing for the competitive examination think that; They will top only by staring the book or keeping the notes under their pillow. They are those people, who after two day preparation seek success in the process. But the reality is that, there is no magic, nor any shortcut about success. If you want to achieve extraordinary results, than you have to do extraordinary struggle. Next time, when you take a cup of tea; you study or not but you must think. Remember! success does not come through mockery but through hardships.
