The humanity began to store and transmit the knowledge through word of mouth. For transmitting the knowledge, the women played a crucial role. The child is more attach to her mom than his dad. In this way, the knowledge about the animals, plants and the breeding activities transmitted to the succeeding generation. This shows the importance of women in the sphere of life. In today's world, the economy and politics is the backbone to compete the world. Economy is the earning of wealth and spending the wealth for the betterment of society. Politics is the study of how state works and the policies which leads to a prosperous nation. Political and economic progress is the activities which leads to the uplifting of a nation. The Role of women in political progress includes making the laws, encouraging women to participate in political activities and representing marginalized communities on national level. Also, pressuring the government to meet public needs and participate in civic life to strengthen the democracy. Women participate in economic

activities, making policies for economic uplifting and giving technical assistance in economic matters leads to economic progress. Also, women helps in mitigating the environmental impacts and harvesting crops increases the GDP per capita Income. But the societal barriers and misinterpretation of religion stopping the women to participate in political and economic activities. By overcoming the societal barriers and engaging the community to participate in decision making encouraging the women to participate in political and economic activities which leads to political and economic progress. This essay will describe the role of women in political and economic progress, the hurdles which stop women to participate in political and economic progress and the recommendations to overcome these hurdles.
