

Part-II

Q. no. 02

Leadership: less about serving the populace and more about perfecting the performance

Despite, popular slogans of integrity, politicians are devoid of practical struggle. Their style of governance is verbal which is empty from concrete steps. This is obvious by the fact that, when one questions them, their words are filled with knowledge, but when one questions them about the course of actions then they have nothing to answer for. Like the hypof crisis of autumn leaves. Above all one has to pay honour to their skill of verbosity because this art is as effective as it brings tears in public. Also it would be a mistake, if one would not pay tribute to their art of self-preservation. They shape themselves according to the changing political environment. There, Ford leadership is an art of words without action.

Q. NO. 03

(Ans 1)

One can infer that ^{the} renewable energy production is posing more environment threat than traditional fossil fuels. Like the production of renewable energy system is a resource intensive process that leaves large environmental footprint. Further, renewable energy systems produce significant pollution and waste which is difficult to recycle. Thus, fire renewable energy production is harming the environment more than the traditional fossil fuel.

(Ans 2)

Electric vehicles (EVs) are not environmentally friendly, as their production process produce significant pollution. Like the manufacturing of lithium-ion batteries requires extensive mining, which causes soil contamination and high water usage. In addition, their disposal of these batteries, produce toxic waste which is more harmful than environmental benefits.

(Ans 3)

The challenge associated with the disposal of renewable energy system after their lifespan ends is that it produces toxic waste which is difficult to recycle. In addition, there is lack of infrastructure which is ^{specifically} designed for the recycling of waste.

(Ans 4)

The article suggests that the renewable energy is not entirely pollution free during its operational phase because the backup necessary for solar and wind power comes from the fossil fuel plant and from battery storage. Both of these backups are notorious for environmental degradation and human rights abuses.

(Ans 5)

The article proposes the balanced approach in addressing the limitations of renewable energy. So, there is a dire need not to blindly use renewables

rather a mix of both renew
asked and non-renewables.

Q. NO. 04

(Ans i)

I will complete this project
tomorrow.

(Ans ii)

If I know the answers, I
will pass the exam.

(Ans iii)

All kinds of stationery is sold
here.

(Ans vii)

A little elegance is left in
these arrogant youth.

(Ans viii)

The mother was ^{herself} searching her young
daughter.

(P.T.O)

Q. no. 05

(Ans a)

A boy was gathering berries from a hedge, when his hand was stung by a nettle. Smearing with the pain, he ran to tell his mother and said to her, bet-ween his sobs, "I only touched it ever so lightly mother". "That's why, you got stung my son", said she, "If you had grasped it firmly it would not have hurt you in the least".

Q. no. 05

(Ans B)

(Ans i)

She came with the wealth on her father's death.

(Ans ii)

I am broke into him because he is a selfish friend.

(Ans v)

The poor live on their honest wages.

(Ans vi)
The thief did not swear to
God.

(Ans vii)

He is leaning beside the wall
as he is not feeling well.

Q. No. 06

(Ans A)

(i)

The director ordered the subordi-
nates to submit the applications
of sick leave in secret and safe.

After winter falling leaves will consist of a complaisant weather to spend time alone.

(vii)

Beneficent:

It is beneficent to help the poor.

Beneficial:

Taking honey in winter, ^{pro}ve beneficial for health.

Q. no. 07

Some of the students, who are

Among the aspirants who are preparing for the competitive exams, some students consider that they will become topper by ~~studying~~ giving only the covers of the book for by pulling notes under the pillow at night. These are such people who, after preparing two days, seek favour in prayers! The fact is that no one has the angel's stick and not any shortcut to success. If someone wants unusual results then unusual struggle should be done. Then next time, when you are thinking about whether to study or not, by taking a cup of tea, remember success does not achieve by making jokes but by hard work.
