

### Question #5 (a)

- i) The thief did not swear **to** God.
- ii) The poor lives **in** their honest wages.
- iii) He is leaning **upto** the wall as he is not feeling well.
- iv) I am broke **by** him because he is a selfish.
- v) She came **with** the wealth on her father's death.

### Question #5 (b)

A boy was gathering berries from a hedge. **W**hen his hand was stung by a nettle. **S**marting with the pain, he ran to tell his mother, and said to her, "Between his sobs and I only touched it ever so lightly," mother "That is why you got stung my son." She said, "If you have grasped it firmly, it would not have hurt you in the least."

### Question #4

- i) I will be completing this project by this time tomorrow.

I will be completing this project by that time tomorrow.

- ii) The mother was herself searching in her young daughter.

The mother was searching herself in her younger daughter.

2  
iii) All kinds of stationeries is sold here.

All kinds of stationary is sold here.

iv) If I know the answers, I would pass the examination.

IF I know the answers, I would pass the exam.

v) A Little elegance is left in those arrogant youth.

A Little elegance is left among arrogant youth.

### Question #6(b)

i) **Monitor:** Monitor the progress of students on diurnal basis.

**Mentor:** Maam Sassi sher is a good mentor for English.

ii) **beneficent:** E-governance is proved beneficent for Federal Board of Revenue (FBR).

**Beneficial:** It is beneficial to take healthy food for spending a good life.

### Question #7

For the preparation of competitive exams, few students think such like

that only through gazed book cover or at night by putting notes under the pillow, they will become topper. These are people, who after two days preparation, Searching reference in the prayers, The reality is that, no one have of "magic stick" <sup>success</sup> nor not the shortcut needed to bring a extraordinary result. Next time, when you hold the Cup of tea and thinking about "Study or not" remember, the Success is not joke, it's get through struggle.

### Question #3

#### Question #1

What can be inferred about environmental impact of renewable energy production compared to traditional fossil fuels?

#### Answer #1:

Traditional fossil fuels energy production causes harmful impact on environment as compared to renewable energy like solar and wind. However, traditional fossil fuels <sup>take part</sup> greater contribution in the green house gases (GHGs) like methane, Carbon dioxide and nitrogen which are harmful to our planet earth while renewable energy are not harm at operational level.

Question #2  
How far electric vehicles (EVs)  
are environmental friendly.

Answer #2:

Electric vehicles (EVs) are often lauded for their environmental friendly image but whose production also results in significant pollution. The manufacturing process of lithium-ion batteries requires extensive mining materials. This mining causes habitat destruction, soil contamination and higher amount of water usage. Additionally, if electricity used to charge (EVs) electric vehicles comes from fossil fuels, their environment benefit diminish significantly.

Question #3

What challenges... their lifespan ends?

Answer #3

As the renewable energy sources lifespan ends, the question of disposal becomes critical. Recycling these components is neither straightforward nor widely practiced, often resulting in the accumulation of toxic waste and without robust infrastructure for managing this flux of discarded materials, the green promise of renewable energy begins to tarnish.

**Question #4**

Why does the article... its operational phase?

**Answer #4**

The article suggest that renewable energy is not entirely pollution free during its operational phase because the intermittent nature of solar and wind power necessitates backup from fossil fuels or reliance on battery storage, the latter which poses its own environmental challenges. Batteries rely on rare earth mining materials which causes degradation and human right abuses.

**Question #5**

How does the ... limitation of renewable energy?

**Answer #5:**

Renewable energy is the critical component in mitigating climate change but rather to advocate for a balanced perspective. Alongwith, renewable energy is not the silver bullet for saving planet. It is a complex, imperfect solution that requires careful management and realistic expectations. Only by acknowledge its limitation can we hope to harness its potential responsibly.

## Politicians and their performance

As per the authors politicians neither help someone nor stand with people in the hour of need. The politician leaders only talk arsenal and not to do on ground level. They shedding crocodile tears in front of public for the purpose of sympathy in the election days and make lie promises with public. They also show sincerity but nothing to do practically. But, this way is not fruitful to make people fool. The leaders often said pen have more power than sword, but in practically they spend less on education and more on defence. This class less do and talk more for their own purpose.
