Title:- Political leaders vs Public Service : Masters of Political Stage

Politicians came into power, for the name of better governance, and the intellectual community and people, no one have the courage to question their motive.

While they are in power, they ignore all the promises which were made at

the time of election. But when the elections over, the promise become an indivisible shadow. Politicians will never fail to entertain the masses, while they have a guilt of their scandals.

The political leadership seems to be less motivated to serve the public and more inline about perfecting the performance.

word count = 91.

Follow the given instructions to get good marks in Precis

- * Understand the original text thoroughly before attempting to write a precis.
- * Determine the central theme or message of the text.
- * Avoid copying sentences directly from the original text. Express the ideas in your own words.
- * A precis should be much shorter than the original text. Aim for about one-third the length.
- * Use clear and simple language, avoiding jargon or complex sentence structures.
- * Use short, straightforward sentences to convey information effectively.
- * Prefer active voice over passive voice to make your writing more concise and engaging.
- * Choose words that accurately and succinctly express the ideas.
- * Avoid unnecessary words or phrases that do not add to the meaning.
- * Present the information without adding your own opinions or interpretations.
- * Ensure your precis is well-written and error-free.
- * Don't write in 1st and 2nd person Pronouns in Precis

In comprehension answer each question comprehensively

Day:

Q3 Comprehension

Q1 Renewable energy production, solar panels for instance, require rare earth elements like cadmium and tellurium, whose extraction involves environmental damage. Same as with wind turbines which production disrupts the ecosystem.

Q2 Electric vehicles (EV), are not environmental friendly. Because in manufacturing it includes lithium-ion batteries which requires mining of elements, lithium, cobalt and nickel. The battery disposal which leads to toxic waste.

Q3 Disposal of renewable energy is an important issue. Solar panels, wind turbines and even EV batteries have lifespan of 20-30 years. without proper system of waste management of renewable lead towards ^{release of} toxic waste in earth.

Q4 Because the renewable energy i.e. solar & wind power is dependent on fossil fuel plants or battery storage. Battery have toxic waste and wind power need alot of land and deforestation which again contribute to the pollution.

The article suggests that in order to address the limitations

Q5 Limitation are to keep a balanced approach between renewable energy and fossil fuel. Which includes not effect the wildlife, forests, proper renewable waste management and reduce the mining.
