**Q7. Translate the following urdu into English, keeping in view the idiomatic / figurative expressions**

04/10

Some students, who are preparing for competitive exams, think that they can become topper just by staring book cover or putting notes under their pillow at night. These are the people who even search some reference even in prayers after two days preparation.

But in reality, no one have "magic stick" or there is no "short cut"

of success. If you want incredible success you have to work incredibly hard. Remember! success does not

success doesn't come from shortcuts, it comes from rolling up your sleeves and putting in the hard yards! comes from

Attempt in idiomatic and proverbial manner  
Focus on grammar please  
Do not attempt word by word

hardwork.

Q. 3. Read the following passages carefully and answer the questions that follow 07/20

2. How far are electric vehicles (EVs) environmentally friendly?

Electric vehicles are often lauded for their environmentally friendly image but their production also results in significant pollution. The manufacturing process requires extensive mining of materials which causes habitat destruction, soil contamination and high water usage which stressed environment.

3. What challenges is associated with the disposal of renewable energy systems after their lifespan ends.

Question of disposal of renewable energy systems after their lifespan ends is critical as recycling these components is neither straightforward, not widely practiced, often resulting in the accumulation of toxic waste. Without a proper management of

this waste material, promise of renewable energy will not be fulfill.

4. Why does the article suggest that renewable energy is not entirely pollution-free during its operational phase?

Renewable energy system is not entirely pollution-free during its operational phase because of intermittent nature of solar and wind power which necessitates back up from fossil fuel plants or reliance on battery storage, the latter of which poses its own environmental challenges. Besides this, batteries rely heavily on lithium and cobalt which both are notorious for environmental degradation.

5. How does the article propose addressing the limitations of renewable energy.

Article propose the limitations of renewable energy system as a complex, imperfect solution that requires careful management and realistic expectations. Only by acknowledging its limitations can be hoped to harness its potential responsibly.

and forgotten after elections

but rarely fulfilled. They showcase theatrical flair, manipulating public sentiment through staged emotions and photo-ops. Adaptable like chameleons, they prioritize self-preservation, seamlessly navigating scandals and shifting ideologies. Ultimately their focus lies on performance over genuine public service, leaving leadership as a mere act.

Overall idea is ok

Title needs improvement.
