William James on guttor of end Breif History Unrelated to the explored context of the topic EDOTODUS Paleistan is a land -naty a goldo WILLO excerpt from a book then use an excerpt also activities. from a book, if you want to analyse it in our own words then contri analyse. Don't mix the economia. Although. having two approache hus been enormous Wissiam Junes, Polistan Short hesources introduction. proper Should be 200-250 Consequently words Lacks proper structure No thesis economic 15 reasons growth installations. 1090. garicultural issues, issues These CYISIS needs econpmic CYISIS Economic he forms enormous CPEC15 No suggestions. 10 hetorms beforms in relations securif Palcistan con States, Th furuse. the economic growth the argument in the and link it to the topic begin with political nome. instability Political instability experienceo economy. An author in 111VESTIDENT AND PROGRESS

Civen truly explored that political instability of every evil Political instable in Palcistan growth of economy. Palcistan's current limits the achieving sustain political land scape shows that growth is difficult, According to Pakistan's Ministry

of Gonomics pecent political chaos in the country brought 3 bission Pakistani Rupees 1055 only in one day Truly, Anatol said, of Political stability and Economic stability go hand in hand? Therefore, Pakiston can not achieve sustainable growth due to aintain the tone and tense of the topic. Your point is not the discussion of issues in Front conomic growth. The topic is whether Balance of payment is the another issue ikistan can achieve sustainable growth or not of faciliston sustainable frouth, Pakistan is one of the developing countries. It depends on foreign mustinational companies (MNCs) such as telecommunication, energy and transportation companies have been in agreement with Pakistan Pakistan pays for the sexuices of multi-national companies. Pakis Poakis always faces balance of payment crisis due sustain enormous imports and shortage of dollar. Pakistan Palcistan's failure to achieve sustainable expression growth is linked with balance of payment crisis. Thus, Pakistan cannot achieve sustainable economic growth. Similarly, Polisten has been facing doficit Rucistan shares borders with Indea, Iran, Afghanistan and Ohica These borders in fact san hoost the export of Rakistani goods. Palcistans chaptic pelations with India, from and Afghanistan have

This does not elaborate how trade deficit is the reason Pakitan cannot achieve sustainable growth.

73	resulted in sonctions on trade. Pakistan has sanctioned
-	Afghan Fransit Trade (ATT) which impacted on
	its exports too. Palcistan's Import level is higher than
_	export. According to Palcistan's Ministry of Economics
-	Palcistan imported 70%, goods and exported 30%, This is
	the heal factor which bat propert Palcistan into
7	Frade deficit. Sustainable gradh is impossible without
	enormous exports. Trade deficit is the factor which
Ġ	has been harming Politister to Jackieve custoinable growth.
01	In netshell, trade deficit stops Pallistan's sustainable
10	economic growth and all the first to the state of the sta
	Moteover, Palistan is one of underdeveloped
-	nations, Palcistan has profound dependence on international
	10ans. Pakistan gets 10an from IMF and WB. It also gets loans from
-	URE, China and Oman. 1971 is the only support of
-	Pakiston for economic recoveries. According to International
-	Crisis Group (ICG) IMF'S Structural Adjustment
	Policy (SAPs) is a chaverge for Paleistan's
	economic growth. IMF35 list of reforms wways lead
	Pakistun into chaos. Especially, INF'S Article 2 Junentation pequires overy State to buy the low more No analysis. No
+	structure
	interest Paicistan's dependency on international loans the paragraph.
1	has resurted in economic crisis Pakistan's dependence thereat and
#	on The approach ap
-	achieving sustainable growth. In short, Palipton's dependency
\dagger	on international debt horms the economic growth.
#	Palcistan 10 a country which hosts
#	numerous economic foreign installations. Foreign installations
1	includes projects of Reko-dig and CPEC. These
+	projects enormously contribute to boost the

economy of Pakiston. CPEC's seaports, special economic -Jones, girports and workers security has heen impacting the economic growth, According to Chinese quitionities the phose -2 of CACC must have completed in 2023 but it failed. Terrorist groups Such as BLA, majeed Group and TTP have been targetting foreign installations, along with workers consequently signary argumentation to foreign installations resulted in slow down to analysis. economic growth, Palcistan is unable to completely eliminate the threats to CPEC. Thus, threats to foreign installations sposts Pakistup cupability to achieve sustainable economic growth. Additionally, energy crisis is also one of the factors behind Pakistan's failure to achieve sustainable growth Pakistan has enormous dependency on Emported hydrowcarbons, Pakistan imports hydrocarbon from INSA, Omen, Russia and UAE. The shortage of hydrowcarbon No argumentation in international markets often causes energy chief analysis. in Paliston Energy Crisis such as long hours loadsheding impacts agricultural and Industrial productions, According to Islamabad Policy Research Institution Report " Energy Crisis and its impads "> Palaistan has experience of 60%. down of production in the textile industry Therefore, energy criss in Pakistan stops sustainable growth, Policistan has agriculture based economy, the agricultural issues harms Polistans sustainable economic growth. Palistan agriculture sector faces energy crisis, limited skills. workers and water issues. According to Pakistan Economic Survey 2024 agriculture sector

	34 %. contributes to the GOP. ISSUES such as
	Luck of skillful lubour, whater Isale and energy No
	Luck of stripul labour, whater isole and energy No Crisis have harmed the economic growth of argumentation and argumentation of any mentation analysis.
	Crisis have normed the economic great production analysis.
	PORISTAN Energy CYISIS IIIIIII IIIIIIIIIIIIIIIIIIIIIIII
1	invento the Prope Thus Delicho cupant achieve sustain-
	able economic growth due to agricultural issues.
	apre economic growth que le agriculture investments
	Besides, setback to foreign investments has harmed Pakistan's economic growth. Pakistan's Civil-
	military leadership amounced SIFC in 2023. The aim
	military leadership announced sit in billion till 2030.
	was based on achiving us \$ 100 billion +ill 2030.
	According to Unkicton's
-	investors from Gill and China have been falling
	transcution, investment and trust building issues
	These issues have led serback to foreign invastage rentation. This issues an opportunity under SIFC for analysis.
	This islas an opportunity under off
	setback in the foreign mestments in Pakistan. Thus,
	Palaston can not achieve sustainable eliminite growing
	Contrarily, the other school of thought orges
	that pakistan can achieve sustainable economic growth.
	Barter trade can boast the economic growth
	in Pakiston. Barter trade has not only increase the import but
	also expert. Polistan signed Borter Isade Agreement in
	Polistan's economy in 2023 experienced tremengargumentation growth. Palcistan can achieve its sustainable economistre to the paragrap
-	growth. Palcistan can achieve its sustainable example
	growth wing the option of barler trough interest and interest.
*	Pakistan can adireve sustainable economic This is just a
1/0	ovample
	growth.
	- 14 1 대표 전 경기 가지 하는 이 경기 대표 교회에 가지 않는 가지 않는 것이 되었다. 그 가지 하는 사람이 지금 사람이 되었다. 그 사람이 되었다. 그 나는 사람이 되었다. 그 나는 사람이 되었다.

Direct foreign investment under (SIFC) can boost the economic growth of Pakiston SIFC provides Provestment opportunities to investors in agriculture,

defence, technology and mining sectors. The investment

will not only benefit the investors but also boosts

the economic growth of Poliston. For instance, investment In the agricultural sector create Jobs, provide skill to labours and contribute to the economy of Pollisto? Thus, through SIFC, Paleiston can achieve Sustainable growth Besides, CDEC has the apability to boost the economic growth of Pakistan. CPEC is a game changer project for Palcistan. The extension of CPEC can help Palcistan's economy. The extension of CPEC to Central Asian Regions con eliminate the energy crisis, weate jub so on and so forth Thus, Pakistan con achieve No Sustainable expansic growth, consiste consiste Reulity is different from the critic length. stance, Pallistan can only guin from barter trade paragraphs under the membership of BRICS. BRICS providesange tremendous access to international may/cets, 120-150 Palcistan after becoming the member of BRICS words.

Can afflise barter trade in international market.

Consequently, the barter trade will reduce

Palcistan's dependency on dollar. It will also boost the economic growth such as import and export. Thus, burter trade only benefit Palcistan under the membership of BRICS rather than bilateral agreements.

Furthermore, SIFC needs numerous reforms so as to facilitiate the investors Investors often face tronscations and security throws. These both contribute to setack to foreign direct investments. Palcistan still has to go more in order to achieve foreign investments. Making the transcation process easy and profiding security to the investors are the most important aspects. Uithout such reforms SIFC will not fury boost the economy of Palcistan. Thus, the conomic growth of Palcistan link with reforms in SIFC.

CPEC is the victim of political

instability. CPEC has been facing becayity threats,

political instability faither having the project.

Its first-phase completed timely but the 2-phose has suffered tremendously for instance, mi-Railways supposed to be completed in 2024 but the Chinese supposed to be completed in 2024 but the Chinese area announced the suspension of the project because of Palistan's political instability. CPEC will never boost the economy of Paliston untill complete Aplitical instability is not achieved.

Thus CDEC deponds on the bolitical landson in SIFC. Thus, CPEC depends on the political land suspe. of Palcistan. To sum up the entire discussion, Palistan

is one of the developing nations. It has tremendous

natural respurces. The proper utilization of

Pakistan's natural resources can boost its Susfainable economic growth Polistans att
stateholders must eliminate polifical instability

threats to economic projects, design tremendous trade diplomacy and unity without unity among posses and institutions, the dream of Pakistan's economic growth

impossible. The current condition of Paki

economy predicts the economic crisis Should be proper structure economy. Therefore, keeping the current conditions of economy before human sights, Pakistan can not achieve sustainable economic growth.
