It is a common perspective that renewable energy saves the environment but Comprehend the passage into 4-7 lines sentences Avoid irrelevant details

it is presented in a soversimplified way.
For production of renewable energy, vescurse! vescurse! process required.
For example Solar panels regiuire rare
earth elements like cadmium and tellusion,
whose extraction is tamage to the
environment. Another examples are wind-turbine
which require steel controle and
rare earth metals. Manufacturing the
components generate greenhouse gases.
Then, there is example of electric
vehicles, which are supposed to be
the most environment triendly but their
batteries are manufactured from materials
like lithium, cobalt and nickel- Additionally
if the electricity used to charge the
batteries of electric vehicles is made
up of gossil quels than what it is
more damaging to the environment.
Moreover, the products used to generate
renewable energy are manufactured for
a specific duration. After that duration,
there is no reliable process for their
