Q No 2: Precis
Title: The Antics of our Political class

The political personalities of the country only speak and cannot take decisive measures. They only make promises but are not serious about the fulfilment. These promises are shattered when the results of the election turn out in the favour of these politicians. Similarly, these politicians are in struggle of gaining even more power and for this purpose they adopt different means. The political leaders are in struggle of making themselves more perfect from different angles and are not loyal with the public.

Total words: $300/3=100$

Follow the given instructions to get good marks in Precis

- * Understand the original text thoroughly before attempting to write a precis.
- * Determine the central theme or message of the text.
- * Avoid copying sentences directly from the original text. Express the ideas in your own words.
- * A precis should be much shorter than the original text. Aim for about one-third the length.
- * Use clear and simple language, avoiding jargon or complex sentence structures.
- * Use short, straightforward sentences to convey information effectively.
- * Prefer active voice over passive voice to make your writing more concise and engaging.
- * Choose words that accurately and succinctly express the ideas.
- * Avoid unnecessary words or phrases that do not add to the meaning.
- * Present the information without adding your own opinions or interpretations.
- * Ensure your precis is well-written and error-free.
- * Don't write in 1st and 2nd person Pronouns in Precis

Q No 4:-

04/10

Q No 03:- Passage:

09/20

Q No 1: ANSWER:

The environmental impacts of renewable energy production compared to traditional fossil fuel can be inferred by its manufacturing, maintenance, and recycling. The renewable energy are claimed to be ~~totally~~ eco-friendly and with zero carbon footprint. But, the ~~reality~~ reality is ~~revert~~ reverse of this, using the fossil fuels for the energy purposes directly impact on environment while renewable resources are indirectly damaging the ecosystem. While manufacturing, and maintenance, gases are being released that pollutes the environment. Similarly, the installation of renewable resources, vast area of land is required, that is often provided in shape of cutting the forests.

Q NO 2: Answers-

Electric Vehicles are designed with the aim that they are environment friendly and contribute zero percent in environmental pollution. And this is obvious till Electric vehicles has nothing to do with ~~traditional~~ resources. Further, Electric Vehicles are environmental friendly in their functions and services. While at the time of manufacturing and even charging from fossil fuel violate the stance of that "Electric vehicle" are eco-friendly. In short,

Whenever the electric vehicles does not contribute in environmental damage, till that EVs are eco-friendly.

Q No 3: Answer:

As all the renewable energy has a finite lifespan depend upon the material and performance. After that ~~of~~ period, the disposal of its debris a challenging job - the disposal ~~these~~ materials damages the environment - Also, it is impossible to recycle the material used in the manufacturing of the resources. Resultantly, the debris mounts an accumulation of toxic waste that throw the promise of "Zero foot-prints" to trash.

Q No 04: Answer:

Renewable energy is not entirely pollution free because a numerous amount of Carbondioxide and other green house gases are being released while manufacturing the parts of these resources. Similarly, the installation capacity of renewable resources is very high that requires a large area. So, for this purpose, forest are being cutted down which contributes in global warming production. Thus, by installing renewable resource we are promising green but

at the same time these resources are indirectly damaging the ecosystem as well.

Q No 05: Answer:

In order to address the limitation of renewable resources, the article suggests that a suitable management is required to offer a solution. By proper understanding of the limitations of these resources, the management would utilize their efforts and would address the limitations.
