Date: _____

(b) Different security, political and economic information leads to disintegration of the world.

Example: The information networks of the BRICS+ nations to suppress the western hegemony, while the information network of the Western ~~and~~ counters anti-western narratives

(v) Recommendation for making an ideal society through positive utilization of the information networks.

(vi) Conclusion

Date: _____ (1)

The humans dominance over 2 million creatures is due their high cognitive ability. This thing leads them to create ideas, stories or other form of information, and communicates these informations with each others.

The first argument, to strengthen this hypothesis, is the formation of different social groups or societies.

While these societies have different sources of information networks.

Subsequently, it forms different sort of societies. As the role of western media has an exhibited

characters in their hegemony. Furthermore,

an autocratic information networks shape an autocratic sort of society.

Similarly, a populist information networks lead to a politically disintegrated society.

In the same way, the incentives behind the formation of different nature of political and religious

(2)

Societies are ~~their distinct~~ information networks. Although it supercedes ~~the~~ humans ~~over the rest of~~ creatures, it also brings about several disastrous effects on the human society. "In a nutshell, the role of information networks is instrumental in the formation of the human society. However, some strategic measures are needed to adopt, so that it will make an effective and ~~evit~~ less ~~soed~~ information networks of the humans."

The ~~presence~~ existence of different societies in a single world is due to different information networks. humans idealise different stories, ~~extract~~ and extract different norms and values from different characters. These things become the ~~source~~ ^{basic} sources of the formation of the society. To more specially, these are ~~informations~~

Date: _____

(3)

which lead to the formation of humans society. for example, ~~it~~ The building block of the communist regime/society is not ~~any more~~ any thing else, but except the idea of Karl Marx. And similarly, the foundation of ~~the~~ the liberal world order ~~is~~ can be traced back to ideas of the antens. ~~It~~ Therefore, different information networks create different sort of Society.

There are some arguments that exclusively exhibit that how different societies are the yields of different information networks.

Firstly, having a strong information networks, western/global north maintained its own hegemony. their information networks create false consciousness of the people so that people across

Date: _____

the globe support their values, culture, norms, political and economic institutions. for example, ~~the~~ ^{both the} people of Syria and Gaza are the victims of oppressor. However, Bashar - Assad regime was against the Western interest. Therefore, western information network portrayed ~~this~~ ^{his} regime as ~~illegitimate~~ ^{an} illegitimate ~~way~~ and inhuman governed way. But they are silent on the israel atrocity.

This is how western information networks shapes western world dominated.

Moreover, ~~An~~ an autocratic information networks shape an autocratic society. such are information network ~~a~~ always tries to justify an autocratic regime. They counter all the anti-autocratic narratives. for example, ~~after~~ General Zia-ul-haq ~~is~~ after the imposition of Marshalla, hired

Date: _____

a team of intellectual writers,
whose only task was to justify
his ~~regime~~ autocratic regime, besides
that they used to ~~counter~~ counter through
the pro-democratic ~~of~~ narratives.

Through ~~transforming~~ establishment
of an autocratic information networks,
he ~~could~~ built an autocratic society.
