Work on Sentence Structure and grammar

Avoid cutting

Length of Answers is enough

Avoid Irrelevant Ideas and Detail

Avoid Repetition of Ideas

Renewable energy sources can also impact the environment if it cannot we be used in proper way like fossil fuels. It is due to

two reason firstly its due to its production material which is extracted by mining, which can distrub environment, aswell as cause

soil errasion. And secondly its mechanism of

it after use it doesnot disposed off with intense

↑
even it will cause toxic chemical waste. However traditional fossil fuel has far more impact than this. If renewable energy source will handle with care it cause very less damage to environment as compared to traditional fossil fuels.

Sentence Structure

2: Electric vehicle's uses lithium ion batteries for their working. These are considered as environment friendly when compare to ~~an~~ vehicle running on fossil fuels. But reality is, without proper mechanism of usage and ~~disposal~~ disposal of batteries it will be more harmful. Lithium ion batteries made up of element like Lithium, Nickel and cobalt which are rare earth metal obtained after mining. Mining itself causing several damages to environment. On the other hand if we use electricity to charge it, which comes from plants running on fossil fuels, then environment diminish significantly.

3: Solar Panels and wind turbines have finite life spans, typically ranging from 20 to 30 years. When they reaches the end of utility, the question of disposal becomes critical. There is not a proper mechanism for their disposal is present which is worldwide accepted. This would result in accumulation of toxic waste. And this toxic waste cancel the result which we obtain from it during use as green energy.

General guidelines for Comprehension

- Read the passage carefully to understand the main idea, tone, and context.
- Identify key information like themes, arguments, dates, and names.
- Analyze the questions to know exactly what's being asked.
- Answer briefly and directly, staying focused on the question.
- Support answers with evidence from the passage (quotes or paraphrasing).
- Avoid adding personal opinions; rely on the text's content.
- Organize your responses logically, with clear points.
- Be concise and stay within the word limit.
- Don't over-interpret—stay true to what the passage conveys.
- Review answers for clarity, grammar, and accuracy if time permits.

wind power plant. This backup can also be provided by batteries, which are made up of lithium and cobalt, both have negative impact on human health and environment. That's why renewable energy is not entirely pollution-free during its operational phase.

5: To address limitation, there is a need of balanced and realistic approach. By doing this, we can work on it to make it more better and effective. By knowing its limitation we ^{should} start new solutions of energy which has less harm impacts on environment than this.
