violence committed against them.

Quaid was the active supporter

of women's effective participation

in all spheres of life. As he believes

women have very important

role in the country's political

and economic development. <sup>It is because</sup> they ~~are~~

account for nearly half of

the country's population and

sphere, their effective workforce participation can increase the economic productivity, whether it is related to the manufacturing sector, or to services or I.T sector. Their participation can also increase the overall efficiency in the economic activities. This can be seen in Pakistan's agricultural sector where women participation is the important driver of growth. However, for more effective utilization of women's participation we have to remove the cultural barriers and provide them with tools and means through which they can increase the effectiveness of their role and thus prove themselves as the important driver of political and economic growth drivers. For this we can learn a lot from the experience of developed countries. In a nutshell, women play very important role in
