## Comprehension

### Answers

10/20

(i)

The environmental impact of renewable energy is more dangerous than traditional fossil fuels. Firstly, it is a resource-intensive process resulting in environmentally damaging practices. Secondly, manufacturing of turbines emits green house gases excessively. The extraction of resources for electronic vehicles results in the destruction of habitats. The disposal process oftenly accumulates toxic materials. The renewable energy is not immune to pollution. Furthermore, solar batteries also promote environmental degradation. Hence, the impact of renewable energy is more harmful than traditional fossil fuels.

(iii)

The electric vehicles are environment friendly to the extent of their image. In reality, these environment enemy. Their production process requires environmentally damaging mining process. The mining process destroys natural habitats, produce soil contamination and consume high water. Furthermore, the electricity from fossil fuels for their charging diminishes their environment friendly approach. Additionally, disposal of batteries results in accumulation of toxic waste. Hence, the electric vehicles are not environment friendly.

(iii)

Various challenges are associated with the disposal of renewable energy systems after their life span ends. These challenges include accumulation of toxic waste during recycling process and emission of greenhouse gas during the recycling of robust materials. Moreover, these renewable sources require backup

from fossil fuels. The battery recycling of solar power emits green house gases. Hence, the disposal process of renewable energy includes various challenges.

#### (iv)

The renewable energy system is not entirely pollution-free during its operational phase because of various challenges. The mining process for renewable energy results in habitat destruction, soil contamination and high water consumption. Moreover, disposal of renewable energy resources after their life-span results in the accumulation of toxic materials. Similarly, the manufacturing of turbines emits green house gases. Apart from this, solar system use land and remove forests. Therefore, the renewable energy is not entirely pollution free.

(v)

The article proposes different strategies for addressing the limitations of renewable energy. First of all, it suggests to pursue a balanced approach like reducing consumption, and diversifying energy mix along with considering a renewable energy as a panacea for environmental degradation and a solution to energy problem. Moreover, it recommends careful management and realistic expectation of the renewable energy. Thus, these are the strategies suggested by the article for overcoming the limitations of renewable energy.

### General guidelines for Comprehension

- Read the passage carefully to understand the main idea, tone, and context.
- Identify key information like themes, arguments, dates, and names.
- Analyze the questions to know exactly what's being asked.
- Answer briefly and directly, staying focused on the question.
- Support answers with evidence from the passage (quotes or paraphrasing).
- Avoid adding personal opinions; rely on the text's content.
- Organize your responses logically, with clear points.
- Be concise and stay within the word limit.
- Don't over-interpret—stay true to what the passage conveys.
- Review answers for clarity, grammar, and accuracy if time permits.

Q: 02

Overall idea is ok  
Title needs improvement.  
Grammar is ok.

PRECISE

Masters of Political Stage

Title: Unparalleled Skills of 09/20  
Politicians ✓

The politicians have various unmatched skills. Firstly, they have mastery over the words. They convert simple question into unsolvable puzzle with complex words, leaving the inquisitor confused. They are good at making promises before elections and forgetting these after winning elections. Their acting skills assist them to pursue public attention during every kind of moment. They have the skill of self-preservation like adapting to changing politics and ideologies, and escaping from scandals. These skills

Follow the Given Instructions to get Good Marks in Precise  
make them good performers instead of

- \* Understand the original text thoroughly before attempting to write a precis.
- \* Determine the central theme or message of the text.
- \* Avoid copying sentences directly from the original text. Express the ideas in your own words.
- \* A precis should be much shorter than the original text. Aim for about one-third the length.
- \* Use clear and simple language, avoiding jargon or complex sentence structures.
- \* Use short, straightforward sentences to convey information effectively.
- \* Prefer active voice over passive voice to make your writing more concise and engaging.
- \* Choose words that accurately and succinctly express the ideas.
- \* Avoid unnecessary words or phrases that do not add to the meaning.
- \* Present the information without adding your own opinions or interpretations.
- \* Ensure your precis is well-written and error-free.
- \* Don't write in 1st and 2nd person Pronouns in Precise  
well-written of people.

Q: 04

## Sentence Correction

06/10

(viii)
