

Follow the Given Instructions to get Good Marks in Precis

- * Understand the original text thoroughly before attempting to write a precis.
- * Determine the central theme or message of the text.
- * Avoid copying sentences directly from the original text. Express the ideas in your own words.
- * A precis should be much shorter than the original text (in Single Passage). Aim for about one-third the length.
- * Use clear and simple language, avoiding jargon or complex sentence structures.
- * Use short, straightforward sentences to convey information effectively.
- * Prefer active voice over passive voice to make your writing more concise and engaging.
- * Choose words that accurately and succinctly express the ideas.
- * Avoid unnecessary words or phrases that do not add to the meaning.
- * Present the information without adding your own opinions or interpretations.
- * Ensure your precis is well-written and error-free.
- * Don't write in 1st and 2nd person Pronouns in Precis

Day: _____

Q.3.

1. It can be inferred about the environmental impact of renewable energy production compared to traditional fossil fuels that though renewable energy production is less harmful than traditional fossil fuel, it is not to be solely relied upon. The reason is because the resource used in its manufacturing, the facilities provided to run them, and the recycling hurdle hamper its effectiveness. It is having potential to reduce pollution over traditional fossil fuels but more needs to be worked upon improving energy efficiency, reducing consumption and diversifying the mix.

2. Electric vehicle is environment friendly to the extent that it instead of fossil fuel burnings, runs on electricity but if it electricity used to charge ~~Electric~~ vehicle comes from fossil fuels, its environment friendly diminishes significantly. Its manufacturing and disposal presents challenges to its environment friendly goals. So, ~~it~~ despite

- its manufacturing costs and disposal challenges, it is ~~more~~ environment friendly.

3. The challenge associated with the disposal of renewable energy systems after their lifespan ends is the complexity of their recycling. The recycling of these products is not easy and hence often ~~can~~ become toxic waste. If its recycling is not managed on time, the benefits of these renewable energy systems can be ~~suppressed~~ ^{suppressed} by its harmful effects.

4. The renewable energy is not entirely pollution free during its operational phase because the process involved in their manufactures are environment damaging practices. For instance, rare earth elements like cadmium and tellurium are extracted through environmentally harmful minings and manufacturing them generates significant greenhouse gases which are environment harmful.

5. The article propose ~~that~~ ^{the} limitations of renewable energy through sound judgement of

Day: _____

purpose, use and impacts. With clear and to the point examples and illustrations, it envisages ~~one~~ the reader not to blindly rely and use renewable energy system as healthy and no environmental cost but search for better, efficient and careful utilization of these systems for realistic expectations.

General guidelines for Comprehension

- Read the passage carefully to understand the main idea, tone, and context.
- Identify key information like themes, arguments, dates, and names.
- Analyze the questions to know exactly what's being asked.
- Answer briefly and directly, staying focused on the question.
- Support answers with evidence from the passage (quotes or paraphrasing).
- Avoid adding personal opinions; rely on the text's content.
- Organize your responses logically, with clear points.
- Be concise and stay within the word limit.
- Don't over-interpret—stay true to what the passage conveys.
- Review answers for clarity, grammar, and accuracy if time permits.
