Their power can not be denied in the UN as they possess $\frac{1}{3}$ rd of membership of UN. Muslim Ummah comes from 57 sovereign states full of natural resources and vast territories. Yet, the exploitation of all these resources is not done properly. ① Intellectual Stagnation

Muslim Ummah is facing problems in the modern age not due to the religious issues rather intellectual stagnation. Muslim Ummah has forgot their golden era of achievements of Muslim scientists Al-Khawarizmi and Al-Beruni etc rather they have adopted Western way of life. Western political, economic and social system has brought a drift between the sovereign Muslim states and they are not on the road of progress altogether like these

glorious past.

Muslim Ummah is blessed with major resources including natural gas, oil, copper, jute, cotton and many other resources. World even in this modern age when talk of renewables make around 45% of energy from the oil and natural gas and Muslim world is unable to exploit these resources. They see towards the West to take benefit of their resources in exchange for their dollars. e.g. Saudi Arabia a major exporter of petrol and oil looks towards US for exploitation of its resources.

② Lack in advancement of science and technology

Muslim Ummah has a golden history of being the father of many sciences and today it has lost all of its desire, passion and drive to excel in different emerging fields. ⑤ Extremism and Terrorism within the Muslim countries

Muslim countries after 9/11 have faced the Western side labelling of ~~them~~ Muslims being terrorists and extremists. This has given rise to their concept of Islamophobia. This labelling by West has been conceived by the whole world and has made Muslim Ummah an extremist community. Muslim leaders have failed to take a stance against this concept and taken a measure to eradicate this concept as some terrorist organisations ISIS and Al-Qaeda in the name of Islam are spreading violence among the rest of the world.

⑥ Political Disunity

Leaders of the Muslim Ummah have all failed to be on the same page for the betterment of the community, rather all are getting and becoming a part of sectarianism. This Shia vs Sunni debate has weakened the social fabric of the Islamic community and made one nation stand in front of the other rather than side by side.

② Globalization

West has the most advantage of this concept of globalization as all

world being connected is run because of Western economic and political system. West has all the time gaining benefits of suctioning the economy of Muslim world and made it all dependent of itself. Muslim Ummah now does not think of exploiting its resources or making their own financial bank to run economy according to the rules of Islam.

③ Failure of UN to solve issues of Muslim world

Middle East has been facing immense crisis. ~~that~~ between Genocide of Israel on Palestine, Syrian crisis along with the situation of Yemen is not covered from anyone and yet UN has failed to give a verdict on these issues because of the superpower of Western world. US being the hegemonic power of the world supports Israel to go on with these crisis. Muslim world is being paralyzed because of the western hegemonic acts as all Muslim nation demand for is the power and betterment of its own state.

④ Western Baggage of Domination

Muslim Ummah has been left crippled under the Western rule. Leaders have all been left devoid of their moral values and integrity. Not a single nation tried to face them and take a stand for Muslim Ummah. Today, Muslim Ummah is all dependent for economy running on the West.
