English Precis and CompositionThe Art of Political Performance

08/20

Q2. Title: Politicians' Art of Placating Public. ✓

The author is trying to show that how politicians ^{deceive} deceive or placate the general public with their words and promises. If anyone questions

Overall idea is ok
Title needs improvement.
Grammar is ok

then, they have an answer made that no one can challenge. When they promise, it feels that they would fulfil but when time comes, ^{promises} they are never fulfilled. The politicians have the art of shedding fake tears and taking sympathy but

General Instructions

Precis

Precis should be one 3rd of original passage

Your passage should reflect the original idea

Don't take direct sentences from the passage

It is not the narration do precis

Avoid Pronoun in Precise

Title should be self-defining and self-explanatory to the passage (96 words)

all this is a drama. Politicians work for themselves not for the public interests. Thus, it is not about ^{searching public for their welfare} but just an art of fulfilling their own interests.

Please enhance length of each answer

Read the passage carefully

production and traditional fuels methods. Both can go hand in hand with better management.

2. Electrical Vehicles (EVs) are environmental friendly till they do not produce harmful gases which contributes to the greenhouse gases and raises global warming. However, their production or manufacturing involves materials which requires extensive mining which causes habitat destruction. If energy for charging batteries would come from fossil fuels, the environment problem will still remain the same and with improper recycling of batteries, the problem will exacerbate.

3. After the lifespan ends of the renewable energy systems, they are disposed as a waste which results in the accumulation of toxic waste because there is no infrastructure to manage this waste. Also, its recycling is not straightforward nor practiced.

4. Renewable energy is not pollution free in its operation phase because it requires backup from fossil fuel plants or battery storage which again is a threat to environment. Batteries rely on materials which have environmental degradation effects.

5. The article propose that a balanced approach should be used. By working on improving

energy efficiency, reducing consumption and diversifying the energy mix. Also, by acknowledging the limitations of renewable energy sources and careful management, these resources can be implemented efficiently and effectively.
