	PAKISTAN AGRICULTURE SECTOR:
	PROBLEMS TO THE FORMERS.
1:	INTRODUCTION:
	Pakistun 15
	a semi-inclustrialized society, It
	heavily relies on agriculture proclue hon.
	Meanwhile, the agriculture sector is
	modernized on the world but

	era Here are the few challenges . agriculture sector facing at the moment
	agi resil

2.1 WATER SCARCITY: Pakistern heavily rey on inclus water. The elimate champe impack, change ded weather pattern and uninformed blockage or release of water by Endia has impacted agriculture sector of Pakistan. Violation of "inclus water treaty" of ten clamed by Pakistan. Underground water agele also at verge of ending in Pakistan. Pakistom. HIGH COST FUELS: Jeported that energy prices are
outsin consisting the production decline
of agriculture sector. Technologically
backward agriculture sector further

pushed pack to traditional methods.
Modern machinery are requires power
neverty, which ultimately on fuels
dependent and high prices are
discourasing packor in agri production.

LACK OF MODERN TECHNIQUES: global agriculture sector bully transformed no technismology in to agri sector. But Pakistern EHI) lacks these advencements. With heavy reliance but loging in action cernets has put up a great challenge to Pakistem economy as well as the guardian of agri sector, - the farmers of lack of technology declined the production of agricions as compase to world agrisector. 2.4 LACK OF LITERACY AMONG PARMERS. Literacy is the yey for any development. But,
the majority of farmers in Pakislem
are exmanase of these modern
tools: at Due to which, agri sector lass benind. This is not the fault of parmers, rather it is mismernegement of Government officials.

33: Economic dis parities: Declyne in production and Porce Challeges to agri sector will pose a light to agriproduction. Farmers byces the challenge of high cost fuels which ultimately discourage them ahead of declined production. The low production may be dealt as high demand and high prices for farmers. But, unfortunately, they do not get the desired east: Conclusion: 4. Pakislam is not an industrial society, rather it is a rely on agriculture economy as economic sure vey reports reflects. However, currently, agriculture sector Jacing huse challenges ahead of modern former. Therefore prajmetre measures are needed to acquere solution.
