Date: State Bank of Pakistan is deusiss Unnecessary detail. One evidence per paragraph. Encrease the Interest rates to 13.25%. In 2019 led to decline in industrial production and a slowdown in economic growth According to International Monetary Fund (IMF) Pakistan's europic growth is expected to slow down to 2017 in 2023, largely due to its fixal and monetary policy challenges. Similarly, Pakistan's energy and interstructure constraints are the major bottleneck to Pts sustainable growth. The country has faced severe energy shortages In secent years, which have had a negative impact on industry and economic growth. According to the World, Bank, Pakistan's energy shortages results on the lose of upto 21. of GDP armually. The wintery is toansportation intrastructure is also inadequate, with poor road networks, inefficient ports and limited rail connectivity. This has increased the cost of doing business in Pakistan and made It difficult for the writing to compete with its regional peers However, the Deviates from the China Pakistan Evonomic Coridorgiumentes) a \$62 billion infrastructure development project has a potential to address Pakistan's intrastructure challenges. The Project which No link to the includes the development of roads, railways topic. Does not address whether ports and energy infrastructure, is or not Pakistan can achieve expected to mcrease Paki stan's GDP upto sustainable growth or not.

Date: 3% annually. Concluding sentence?? Newto the shallenges, there are certain prortundies for the seistainable growth in Paristan25 Economy has traditionally in reliant on few sectors, such as textiles agriculture. However, there are several other sectors that have the potential to drive growth and diversity the economy. One such sector is the IT industry which has shown remarkable growth in recent years Pakistan's IT industry has grown to from a mere \$30 million in 2000 to over \$3.5 billion in 2020 with exports of over \$2 billian. The sector has also created the usards jobs and has the potential to crea many more Another sector with Pake 3 teen cultural heretage and natural builty attractions such as ancient model Civilization, the Himplay beautiful valley of to the World Towns on Organization Pakistan has the potential to million tourists annually significant revenue and creating jobs. Similarly agriculture sector, which is the backbone Pakistan's economy, has the potential to drive growth the adoption of modern technology and farming practices In the same way, investment in human capital is critical for driving growth and productivity in Pakistan. Education and realthran Date: are two key areas that require significant investment. Pakistan has made progress in moreasing access to education, but the quality of education remains a major concern-According to the World Books, Pakistan3 education system is ranker 133 out of 140 countries in terms of quality similarly , the healthare system in Pakistan is also order developed, with significant disparifies the poor. However, there are several initiatives that navy been vacanched to address these challenges. For example, The Prime Ministruit fouth Program has provided schalaships + thoughds of students to pursue hygher education. Firmilarly, the Education Sto Reform Program has aimed to improve quality of education in Pakistan. Courtries like South Korea and Singapere have shown that investment in numan capital can drive economic growth and productivity. For example: South Kosea's investment in education and training has enabled et to become one of the world's leading economies. Regional trade and cooperation can also play a critical role in driving growth in Pakistan. The country is strategically located at the cross reads of South Asia, Central Asta and Middle East making it an important hub for regional trade. Pakistan has trade agreements with several
