Date: _____

Day: _____

Indian President, Droupadi Murmu, became the first tribal woman to hold the office of Indian president. Her rise to one of the highest political positions in the country is a evident to the transformative power of women's leadership in shaping inclusive governance. Women can transform both the economic and political sphere through the leadership practices. Women role in politics can enhance governance and policy outcomes. Bridging the gender gap in political leadership, and advocating for legislative measures against the gender based violence. Besides, they would advocate for equitable access to technology and raise concern for women health. Moreover, women role in economic progress, would drive toward economic growth, grant them top position in

Organizations and they are also attached to the informal sector of the country. Moreover, it would lead toward women economic empowerment and industries can achieve growth in production. However, women are facing some challenges in both sectors, the socio-cultural barrier and harassment of work place are barriers to the women role. These can be mitigated by addressing safety concerns and by increasing their literacy rate. In a nutshell, women play a crucial role in fostering inclusive governance, driving economic growth and promoting social progress. There are some challenges to women participation in political and economic progress which can be overcome with some pragmatic measures.
