

ESSAY

Global Warming is an Expensive Hoax.

Outlines:

1- Introduction

- 1.1. Definition of ~~global~~ warming.
- 1.2. Brief overview of the debate surrounding Global ~~warming~~

1.3. Thesis Statement:

~~While many consider global warming a pressing issue, evidence suggests it is an expensive hoax propagated by vested interests to control global resources and economies.~~

2- Origins of the Global warming Narrative

- 2.1. Emergence of the concept in the late 20th century
- 2.2. Role of environmental organizations and political entities
- 2.3. Initial predictions and their failure to materialize

Not asked

3- Flawed Science Behind Global warming:-

- 3.1. Dependence on computer models and

Not asked

~~Spectulative data.~~

~~3.2. Controversies surrounding climate data manipulation~~

~~3.3. Lack of conclusive evidence linking human activities to drastic climate change~~

~~4 Economic Costs Of The Global Warming Agenda:~~

~~4.1. Billions spent on green energy initiatives with limited success~~

~~4.2. Impact on developing economies reliant on fossil fuels~~ Not asked

~~4.3. Job losses and increased energy costs in the name of environmental policies~~

~~5. Political and Corporate Interests~~

~~5.1. Global warming as a tool for geopolitical control.~~

~~5.2. Influence of multinational corporations profiting from climate hysteria~~ Not asked

~~5.3. Role of media in exaggerating the threat~~

6- Counterarguments to The Hoax Claim

- 6.1. ~~Scientific Consensus on global warming~~
- 6.2. ~~Documented Evidence of rising global temperatures~~
- 6.3. ~~Climate-related disasters and their correlation with human activity~~

These only consider the environmental perspective not the economic one.

7- Addressing Counterarguments:-

- 7.1. ~~Questioning the so-called scientific consensus.~~
- 7.2. ~~Distinguishing natural climate variability from anthropogenic causes~~
- 7.3. ~~Media sensationalism in attributing disasters to climate change.~~

You are giving a method on how to rebut counter-arguments, not actually rebutting them

8- Real Motives Behind the Global Warming Campaign:-

- 8.1. ~~Redistribution of wealth through carbon taxes and climate agreements~~
- 8.2. ~~Political leverage over sovereign nations~~
- 8.3. ~~Suppression of alternative viewpoints~~

9- Consequences Of Believing In The Hoax:-

- 9.1. ~~Diverted attention from pressing global~~

Your stance is that it is a hoax, so why would there be consequences of believing the truth??

Day: _____

issues

9.2. Burden on taxpayers and small businesses

9.3. Economic stagnation in the name
of sustainability

10. Conclusion:-

10.1. Reiterating the thesis: Global warming is a manufactured crisis designed to manipulate economies and societies

10.2. call for skepticism and rational policy making based on genuine environmental needs.

Incoherent. No clear stance.

This is a completely irrelevant, unstructured, and incoherent outline. The examiner is not going to read your essay beyond this point. Basic grammar and structure are being evaluated.

Topic breakdown

Pick a stance. Don't agree with both sides or pick a middle ground. Discuss how or why of whether global warming is an expensive hoax or not. Combine the environmental and economic aspect don't discuss them separately. No solutions are required in an argumentative essay.

Depending on the approach there will be either 2 or 3 main headings 1 thesis and 2nd antithesis. Or. 1 thesis, 2nd antithesis and 3rd synthesis. Please note that the heading will be topic-specific, not the words thesis, antithesis and synthesis.

General guideline.

Maintain the tone of the topic

Answer the asked part

Pay attention to the tense of the topic and the given keywords

Follow the outline exactly as it is

Provide substantial research-backed evidence.

Use formal language always

No use of 1st and 2nd person pronouns.

Maintain unity of idea in a single paragraph.

Introduction

"We face a true planetary emergency. The climate crisis is not a political issue, it is a moral and spiritual challenge to all of humanity."

This contradicts the preferred stance.

Attention grabber should be part of the intro, not written separately above it.

- Al Gore Nobel Peace Prize winner 2007

Global warming is defined as the gradual increase in Earth's surface temperature due to greenhouse gas emissions. This

Don't define terms in introduction

concept has dominated global discussions for decades, with many scientists, policy makers and activists warning of catastrophic consequences. However, a

growing number of skeptics argue that global warming is an elaborate hoax - an expensive fabrication designed to

political power. This essay explores

the origins, scientific flaws, economic burdens and ulterior motives behind

the global warming agenda, ultimately concluding that it is a deceptive and costly narrative.

In view of the devastating effects that global warming has started

Unstructured. No relation to the given topic, no structure. Also short intro. Should be 200-250 words

to have on life. The problem has become a global concern forcing attention from all concerned. To bring all this information together, the United Nations formed a group of scientists called the International Panel on Climate Change (IPCC). IPCC emphasizing the dangers of human-induced climate change. However, many early predictions, such as dramatic temperature increases and melting polar ice caps, have failed to materialize. This raises questions about the reliability of the global warming narrative and its underlying motives.

The scientific foundation of global warming is riddled with inconsistencies. Much of the evidence relies on computer models that predict future climate scenarios. These models often depend on speculative data and fail to account for the natural variability of Earth's climate. Furthermore, instances of data manipulation, such as the "climategate" scandal in

No such paragraph in the outline

2009, where leaked emails revealed scientists discussing ways to exaggerate warming trends, have undermined public trust. Despite decades of research, there is no conclusive evidence directly linking human activities to catastrophic climate change.

No argumentation No analysis. No claim made in the paragraph. No discussion of how the idea proves that global warming is an expensive hoax. No relation to the economic aspect of the claim

Furthermore, the global warming agenda has imposed immense financial burdens on economies worldwide. Governments have funneled billions into green energy initiatives like solar and wind power, often with limited success. Developing economies, heavily reliant on fossil fuels, are forced to abandon affordable energy sources, resulting in slowed growth and increased poverty. Meanwhile, restrictive environmental policies in developed nations have led to job losses, higher energy costs, and economic stagnation, all in the name of combating climate change.

Does not prove that it is an expensive hoax.

Incoherent. No argumentation and Analysis. No claim no evidence

Global warming has become a powerful tool for political and
