

Q No 2:

Answer: Nuclear Program of
Pakistan Overview

In medieval era there was struggle for power and emergence change the power dynamic after using nuke on 'Heroshima and nagesak'. It got military concern world widely.

When cold war started after WWII all countries in race of (Nuke).

China: china started nuke a declared 1962

India: India started in 1964, then 1974 and exploded in 1998.

Iran: Iran was dealing with US for Nuke.

Events Leading Pakistan for Nuke

India 1964
Smoking Buddha

1971
Separation of Bangladesh

cold War

Power Balancing with Neighbours

Russia Plan for warm-water.

India smoking Buddha: India planned to use nuclear power for energy source but their Pakistan egoistically using nuke as power tool late 1964.

Separation of Bangladesh: After rebellion war in 1971 Pakistan public strongly Depressed. Pakistan loss huge area and man-power.

Cold War: After WWII in global dynamics power balancing start and Russia and US Revolutionary start indirectly. The major power started wide game.

Hostile Neighbor:

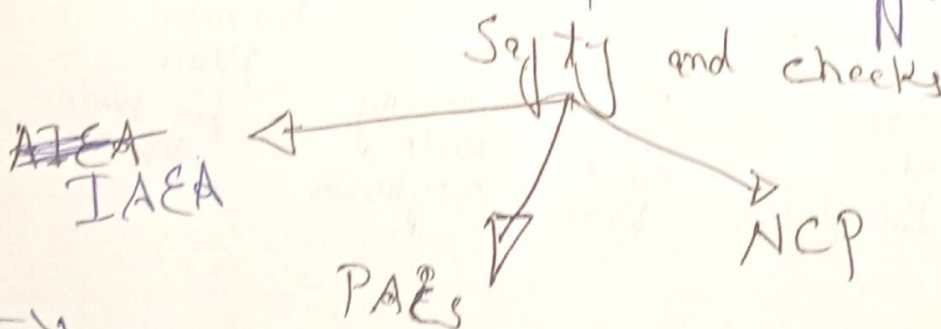

There was struggle between China and India to get nuclear power so Pakistan must seek Russia warm water plan:

Russia and US was planned to reach warm water - It need to counter the China as well Land Locked country.

Pakistan Nuke

Safety and Security:

After three day consecutive test on May 28th 1998 the Globe was feeling unsafe and started blame Pakistan. Pakistan suffered from Sanction.

There are many organization like Pakistan Atomic Energy, National Nuclear Council of Pakistan and International Atomic Energy Agency.

To reduce Risk of radiation

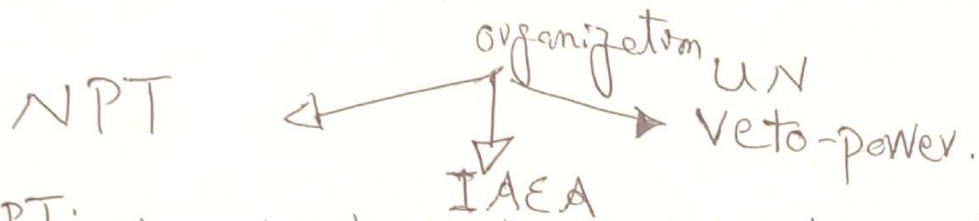

proper Installation

Safety Secure Transportation

SOB's for Nuke.

International concern

on Nuke: There is different organization for check and Balance of Nuke. It safety for public and International countries.

NPT: Non-proliferative treaty & international organization which balance the flow of nuke and give special protocol to be Nuke. Pakistan is not Part of NPT.

IAEA: International organization provide safety and checks on Atomic countries in quantity of production

Veto-power:

Five UN Veto power country always in front line for developing countries to either develop or not the nuke.

Pakistan in Regional Dynamics:

There was block in military powerful country.

Two main power West power and North power
In West power the US is Legitimathy Supper in all ways. It has strong economy and military power.

While North Power

china and russia is big power in struggle of stability and power.

⇒ blance When Pakistan tested nuclear on may 28th 1998 all global power shocked and started amazing foreign policy with Pakistan. Indeed Nuke Balance Pakistan Globaly.
