created by social media.

In Tunisia, a youngster burnt himself because of poverty. This incident is a dynamic change in Arab states which leads to Arab Spring. Riots against the monarchy started all over the Arab states. The law and order situation became uncontrollable for state. This situation cause a huge disaster in Tunisia, Libya, Syria and many more Arab nations, which forces to change governments.

On the other hand, rapid urbanization of cities has become another challenge of law and order situation in modern age. Over crowded cities with little or no measures to accommodate them create unsafe environment. In a city of Skardu, after massive migration from villages, increased by 13% in last two years. Insufficient arrangement to secure the city with increase in population cause challenges to law and order situation.

LUCKY

Insufficient security personnel to maintain law and order situation is another challenge. Pakistan have 1 policeman for 150 citizens. The ratio is portraying how the situation is at the situation. The police to citizen ratio must be 1:100 or 1:150 to maintain law and order situation.

In a nutshell, modern challenges requires modern solution. Advancement in technology not only makes our life easy but also introduce new challenges in law and order situation. Unregistered citizens, refugees and migrated people has also creating a challenges to maintain peace and security. Old system of security and counter chaos for modern issues is also disturbing the law and order situation. Though challenges are numerous but with proper legislation

LUCKY

advancement in security system and proper monitoring of every movement can solve the problem. No one can ignore that the modern age have new varrent of challenges with emergence in technology and urbanization.
