Question No-2

Write a précis of the passage

03/20

In every era, civilizations have displayed greatness, but beneath that progress lies unseen decay. Today's society, obsessed with speed, innovation and desire for more, hides a spiritual emptiness. Values once rooted in justice, humility and balance are replaced by selfishness and pride. Institutions, which were once built on ethics are now driven by materialistic gains. There are many disadvantages of this change. There is no trust among neighbours and institutions are degenerating, and intellect is bowing to greed. We once wanted to enlighten ourselves which is now replaced with thirst for more wealth. Such hollow progress makes the spirit of human restless. Unless, a moral awakening overthrews this glamorized progress, society will glitter from outside but crumbles from within.

(iv)

Traditional military force and digital warfare both affected India's defense security. During traditional military intervention, Pakistan struck down selected military installation that paralyzed during communication. While, during digital warfare, cyber units of Pakistan disabled enemy command systems, blinded satellite networks, silenced air defense radar and disrupted encrypted communication. According to my thinking, digital warfare proves to be more effective because entire India's security was at risk not just some selected installations. It was digital warfare that forced India to surrender.

(v)

The event of May 10, 2025, showed us that power does not lie only in traditional warfare. Gone are those days when military superiority meant size of army and traditional weapons.
