The Essay

woman is not a gender, it is a leader designed in itself. Women are the backbone of the nation, helping it move towards social, political and economic development. Women serve as the potent catalyst to bring prosperity and progress to the nation. It is the woman who makes a nation strong, possessing the potential to make/bring differences from the domestic level to the global level. Additionally, the women are capable to bring changes at the broader level, since the history is a witness of numerous women who have displayed progress in every sphere of life and making significant progress in future present and planning to do the same in future.

You are just beating around the bush. You have neither introduced your points nor unfolded the terminologies

Similarly, women has been playing an evolving role in leadership and decision making for many decades. They are making promising progress through their continual efforts, inspiring the nations and making remarkable discoveries and achievements. Moreover, there are many fields, where they have gained reputable recognition like in politics, Business, Science, Technology, Engineering and Mathematics (STEM), education, healthcare and sports. Their progress is making their path in the patriarchal world without any discrimination. These all women are making innovations alongside men in all sectors of the workforce.

The significance of the role of women in leadership and decision making brings multiple prospects. It helps to create a sense of gender equality in the society, combining multiple perspectives and bringing innovative ideas and solutions to the table. Providing equal opportunities to the women, and allowing them to pursue their career according to their desires bring healthy environment, ultimately uplifting economies and assist in breaking the so-called patriarchal norms. Their presence in the form of leaders and decision-makers develops in them a sense of confidence and a source of motivation. They are often seen in promoting collaborative environment, and they do possess empathy and have the ability to bring enormous

changes while maintaining the collaboration among the co-workers.

The role of women in leadership and decision making serves as a positive catalyst, bringing transformation and making courageous actions, possessing the potential to bring differences at the becalm level. The world has initiated so many revolutions, these revolution are not just the efforts of man; however, their efforts are shown at becalm level, but there were women too.

The women including the black and white both fought to get their rights. However, despite being suppressed by the white & the struggles of black women are not lesser like Sarah Parker, her role in American revolution was enormous.

Argument is not aligned to the topic

Argument is too weak

Furthermore women have been playing an ~~an~~ inclusive role in politics and public service. The world has seen so many women leaders, who were capable to bring enormous prosperity to their nations during their leaderships. Their empowering decisions help the nation to stand against the crisis and to achieve economic, social and political stability. For instance Jacinda Ardern, the PM of New Zealand. She is known for her effective and inspiring handling of crisis during the COVID-19. Similarly Angela Merkel, the Chancellor of Germany, she is renowned for her leadership during the European financial crisis. Last but not the least, Hasina Wajid, the PM of Bangladesh, known for her dedication for the country and people, has served the people for over 13 years.

Their dedication shows they all manage to lead their nations wisely.

Similarly, there are many women in the world, who has been working in the business sector and making prominent results. Women play a very ~~pro~~ ~~fruit~~ role in bringing innovation and growth.

They do possess the potential to derive diverse perspectives and skills to the table. Among many notable business women

Mary Barra, the CEO of General Motors (GM), a global automaker is known for her leadership and innovative decision making ideas to transform GM into a technology driven company.

Additionally the inspiring role of women's leadership and decisionmaking can be observed in STEM. Their mindful and creative decisions has helped in many phases of

life. Among these Rosalind Franklin, the women behind the structure discovery of the genuine of the DNA, is the lost her life but gave this remarkable discovery, the base upon which genetic researches are made. Incidentally, Arifa Karim, the youngest Microsoft Certified Professional has inspired a lot of girls to pursue their career in this field of technology. Moreover, Marie Curie, the dual noble prize winner has made recognition by giving her noteworthy contributions in the field of STEM.

Certainly, in education sector, many women has been making influential progress. For instance Michelle Obama has made several efforts for promoting girls education with the aim to make education accessible for

girls. Similarly Malala Yousafzai a Nobel peace prize laureate who dedicated her life for girls education, advocating their education rights to make them stand out in the society. In addition to this Dr. Mae is an advocate for STEM education, she continues to promote education, innovation and social change.

In healthcare sector, the women has been successful in making inspiring contributions. Their dedication towards humanity and their effective decision making skills has made significant contribution in health sectors. Florence Nightingale, Dr. Elizabeth Blackwell and Dr. Ruth Pfau are among those women who contributed a lot in the health sectors. Their contributions inspire many women, and they do support certain donations campaigns. These efforts have been possible because of the struggle of such motivated women.

Women are also leading in sports. They are achieving medals and making their names written in gold, motivating the future girls to go and opt choose any career and displaying their leadership and decision making skills, which make them able to achieve remarkable results.

For instance, Sania Mirza, Sania Mirza and Serena Williams are among those ladies who are taking decisions to, confidently, representing their nations at the global level.

The point behind every success the women has made, despite in history, in present or in future, represents their skills and their dedicated leadership & qualities, which assist them in taking informed decisions. Women's are not weak, nor they are lagging. They just need some more representation to change the order of this patriarchal society.

In conclusion, the success stories of the women around the world is an evident that they do possess strong leadership qualities and impactful decision making skills. Their abilities make them able to represent themselves at the global level, breaking the chains of fragility and representing their capabilities to make the world understand about their potential, they had since the formation of this world.
