WOMEN EMPOWERMENT.

An empowered women can shape a society so beautifully in all the aspects that we can not imagine without empowering them in real sense. Women contribute socially by upbringing the future generations in an educated way, they can contribute in the educational institutions and their input is also very valuable in the politics as it sometimes bring other side of the picture. This essay explains how empowering women in these areas can help societies reach their full potential and glory.

Societies depend upon the initial upbringing of the children and women play very important
