Campus: Islamabad ID: 38356

Wealth Prioritize over Ethics

A well-educated, intellectual and a brave man always prioritize work not to prioritize to accumulate wealth. Same the case with soldiers, they like to fight not to like pay for battles. Same the case with clergy men and also with doctors.

Doctors ought to like fee but good doctors care about their patients. There is no doubt that money is important but their work, ethics, moral obligation always comes first than money.
