Translation:

If the world does not attract you, if tears fill up in your eyes amid fear of Allah, if concept of Hell produces Divine fear in you, if you worship Allah the way He should be worshipped, if piety draws you in and your feet stop from heading onto the path of evil - then you are pious. Some are born pious and some become righteous. Being righteous is a blessing. Becoming righteous is a deed of constant self-purification and struggle, which takes time and it demands enduring hardships.
