Translation

You become virtuous if the world does not glamourize you, your eyes tear up in fear of Allah, the notion of Hell instills God's fear in you, you worship Allah as He rightfully deserves, and are drawn to do good while turning away from the wrong path. Being a virtuous is quite fortunate as some are ~~are~~ born ~~to~~ virtuous, while ~~some~~ ^{others} become virtuous, and the process of becoming one involves bearing hardships and a continuous struggle and self-purification.
