

Precis - 12

Title:

Prioritizing Work Over Money

Money making is not the main goal of a skilled person's thought just like dinner. Dinner is not the chief object of healthy people. Wealthy people likes earning money but its not their main purpose.

A good soldier, a clergyman and a doctor focuses on their work instead of money making. A Soldier pays more attention over winning battles than gaining pay. A Clergyman performs moral duty without material lust.

Doctor would prefer the lives
of his patients rather than his
fees. Morally good people prioritize
their work over money.

other
Title : Duty over wealth.
