Translation

You are a righteous if world is not distracting you, your eyes drop from the fear of Allah, the imagination of hell develops the fear of Allah in you, do the perfect worships of Allah, virtue attracts you towards itself, and stop from wrong doings. Some are virtuous, and some become virtuous. It is fortune to be a righteous. The deeds of mujahideen and continuous self-purification is required to become righteous. It is a time taking and pain tolerating process.
