## Paragraph Writing

### WOMEN EMPOWERMENT

Your paragraph is fine. Women empowerment  
Arguments are okay but your  
examples are mainly focused on  
Pakistan.  
Topic was broad so write it in a  
broader way and highlight various  
dimensions of it.  
Atleast have a proper introductory  
and concluding line.

Shrinking the gender gap as a  
result (Academy of Asian Mohammed  
Al-Jinnah) highlighted importance  
of empowering women when he  
stated, "No nation can rise to  
the height of glory unless  
its women are side by side  
with you".

Education is a  
fundamental medium to empower  
women and make them a part  
of country's development  
process. Across the world, the  
crucial need of women's

education has been promoted by activists. **Sara Mardini**, a Syrian activist, advocates the right of displaced and refugee women to receive education. Likewise, Pakistan has also taken measures to ensure the accessibility of women education to women.

Article 25-A of Pakistan's constitution, provides legal right to all its citizens to receive education. This includes the women of the country as well. Government's initiatives, such as **Pakistan Bait-ul-Mal Women Empowerment Centres**, and **Punjab Vocational Training Council (PVTc)**, assist the women in their journey to become financially independent. NGO's add to the government's efforts. These include the work of **Bedari** and, **SAWERA**.

The slogan of women empowerment has to be made a social reality by shifting the societal mindset, which is deep rooted in convention and tradition, that women should be kept within four walls. This ~~shift~~ change can be achieved by social media

platforms. Providing media coverage to women's achievements in sports, science, technology and literature, will facilitate in the paradigm shift.

Many women accomplishments go unnoticed due to little media coverage.

**Pakistani Women Cricket Team** receives less media exposure and sponsorships compared to men's team. Gold medal winner at **IMMAF Asian Championship**,

**Bano Butt**, and **Nergis Mavalvala**, who made historic

contribution to the work in

**Gravitation Wave Detection**, were not acknowledged widely because of little media coverage.

Consequently, it is imperative for a country to prioritize women's education. This milestone ~~can~~ be effectively achieved by establishing educational and training institutes for women in remote areas. Media outlets must increase their role in positively portrayed the women's role to bring about the change.
