True Professionals Value Purpose

A wise or brave person never makes money their goal. Just like people enjoy food but don't live only for it, good people like earning money but don't live just to earn. A good Soldier fights for his country, not just for his salary. A clergyman's aim is to preach and guide, not just to be paid. A professional doctor takes care of health of their patients. Doctors mainly aim to heal the sick. Honest and trained people always put their duty first and money second.
