Self-fulfilment vs Making Money

Making money is necessary for the livelihood of everyone. However, it is not the primary goal for ~~ever~~ all. ~~Liking the sensation of making money is a natural instinct found in every person, but the monetary satisfaction is not the only thought in every person's mind.~~ For the educated and intellects, money is important, but it comes second to the feeling of self-fulfilment which results from ~~doing~~ their work. Doctors save lives, soldiers win battles, clergymen spread the word of God as their profession. These tasks are a means of their earning but, the satisfaction of fulfilling a purpose takes priority over the money earned.

PRECIS EXCEEDS WORD LIMIT
BE PRECIS AND TO THE POINT
NOT SATISFACTORY NEED IMPROVEMENT
