

Challenges of

ate: Women Empowerment in Pakistan

Women Empowerment is very essential factor of Pakistan progress and development. Allowing women to take part and contribute in country social and economic growth is crucial. Women face challenges by society, which hinder their growth, which in long run effect overall growth of our country.

Pakistani cultural/society is male dominant. Denying women their basic right of education and employment. Making them socially, economically weak and dependent. Women are seen as domestic worker and helpers. This limit their true potential by keeping them illiterate.

Personal stories like Malal Yousafzai, shows true face of our society and the challenges face by women in Pakistan. Law and Act like 'Harassment' fail to protect women rights.

Media, Government and Society must address women empowerment issue by giving awareness to public and by showing positive image of women empowerment role in
