History is replete with evidence

History is full of such successful people who start their lives in extremely difficult circumstances but later they were counted among world's successful and renowned personalities. Success, respect and fame are never served to you on a plate, only wealth can be, even that comes with a condition that you must have ancestors who have been successful, only then you will inherit it. With wealth, you can buy worldly possessions / amenities but not happiness. Sometimes, it takes decades for a person to earn respect, but only a moment is enough to earn disrepute or become controversial.
