

PART-II QUESTION-7

NATIONAL INTEGRATION

Intro?

National integration is the process of merging diverse groups into a cohesive body by a shared sense of identity, loyalty and overall well-being. It is a continuous process of bonding together the individuals from various socio-cultural and ethnic backgrounds into a common national identity. More precisely,

“National integration is a quest for unity within the state regardless of religion, race, creed or ethnic traits and language.”

Principles of National Integration

According to??

National integration principles focus on fostering unity and cohesion among diverse groups within a nation, aiming to create

a sense of shared identity and belonging. These principles involve promoting equality, encouraging tolerance and understanding and emphasizing shared values and goals. These principles are discussed below in detail:

(i) Equality and Inclusivity

Ensuring that all citizens, regardless of their background, have equal opportunities and are treated fairly. For example: the initiative of granting NIC cards to intersex individuals by the former prime minister was a step towards equality and inclusivity.

(ii) Shared Identity and Values

It means promoting a sense of common purpose and shared values to foster unity and belonging. An example of which can be found in Japan when, after the Hiroshima-Nagasaki attack, the citizens of Japan came together to ~~stand~~^{bring} the nation and country to its former glory.

(iii) Economic Justice

Addressing economic disparities and promoting equitable resource distribution to reduce social tensions and promote economic stability. For instance, programs like Benazir Income Support and Health Cards promote such justice.

(iv) Tolerance and Respect

It signifies promoting understanding and respect for different cultures, religions and beliefs. This respect and tolerance extends to online social presence as well.

(v) Addressing Regionalism and Discrimination

Tackling regional disparities and discrimination to ensure that all regions and groups feel included and valued.

Recommendations to Strengthen National Integration in Pakistan

The importance of national integration cannot be undermined and specially in a country who fosters various cultures and religious groups. Against the cloudy horizon of national disintegration, steering the process of national integration urges the federal government to focus on following steps:

(i) National Action Plan

A well-thought-out National Social Action Plan (NSAP) is required considering the socio-economic, and political imperatives of all the provinces, thereby satisfying the essential needs of the ethno-cultural and socio-political divergent identities.

(ii) Balochistan Issue

Excessive efforts at the grassroots level are needed to integrate the Baloch communities with the other provinces. In this regard, the provision of 4G internet service and the development of the transmission lines and rail roads networks in all the provinces will help bring the on going initiatives to a logical end.

(iii) Equitable Distribution Of what?

Equitable distribution of development projects is required while accommodating the local private sector for creating new entrepreneurial units, cementing the unified economy. The central government needs to give priority to those projects which generate national integration.

(iv) Inter provincial Jobs

Inter provincial internship programmes with attractive packages for the qualified skilled professionals like doctors, engineers and economic managers should be encouraged.

(v) Political Integration

National political parties need to break off their major reliance on provincial politics. They should transform their role, behavioural patterns, political priorities and party interests from regional politics to more national politics.

QUESTION - 6

DOMESTIC IRRIGATION ISSUES

Challenges

Intro?

Irrigation has been one of the major challenges for Pakistan over the last few decades. Domestic irrigation challenges in Pakistan include water wastage, unequal access, and inefficient infrastructure, leading to reduced agricultural productivity and water scarcity. These challenges are discussed below:

(i) Outdated Infrastructure

Much of the irrigation infrastructure is old and poorly maintained, leading to significant water losses through seepage and leaks. Moreover, low storage capacity and silting of existing reservoirs result in water shortages, especially during critical periods.

iii) Water Delivery and Distribution

Losses in the canal system are substantial and farmers often face inequitable water distribution, especially at the tail end of the system.

The Indus Basin Irrigation System, while vast, faces challenges in ensuring equitable distribution of water among provinces and even within regions, leading to disputes.

(iii) Over extraction

Overreliance on ground water for irrigation, especially ~~with~~ⁱⁿ regions with poor surface water availability, has led to declining water tables and further exacerbates the issue.
