

Q. Translation

History is fill with such successful people who commenced their ^{early} lives amid grim circumstances. But later, they came to be counted in well-renowned and victorious personalities. Success, respect and fame are not served to you in a plate, only wealth can be handed to you in a plate. A mandatory condition for this is that your forefathers must have possessed the property, only then you can acquire wealth. With wealth, you can buy worldly luxuries, but you cannot buy felicity. Sometimes, it takes decades for a person to earn respect, but it only takes a single moment to earn disgrace or become notorious.
