The history is filled with successful people who started their lives in extremely difficult circumstances but eventually they become most accomplished and renowned personalities, worldwide. Success, respect, and fame are not handed to you on a platter, only wealth can sometimes be handed down this way, and even that comes with a condition: that you inherit from your ancestors to acquire wealth. With wealth you can buy worldly goods, but not happiness. Sometimes, it takes decades for a person to earn respect, but a moment to lose it or become controversial.
