TRANSLATION - TEST - I

History is full of people who started their life journey in a very difficult situation but later they got to make it in the successful and well known people of the world. Success and **Respect** is not free, only money is free but you can only get it on a condition and that is if your father and forefather is wealthy. With such wealth you can fulfill the basic necessities of life but can't buy happiness. Sometimes it takes a man decades to earn respect but to lose it all, a fraction of second is enough.
