Literature is not merely words play rather it is the reflection of human experiences and feelings. When any poet or writer picks up a pen, he paints a picture of his time and leaves a mark for the upcoming generations. Our phenomenal poets like Ghalib, Iqbal and Faiz did not only write poetry, but turned the entire culture into words. Unfortunately today's generation is moving further apart from books and has lost themselves into the glamour of social media. If we did not keep our literary traditions alive then we will lose our identity. Literature is that moment that enjoins past to

past to present and present to future
It is the need of the hour that
we should encourage reading
among youth and should introduce
them to our esteemed writers and
poets so that they stay rooted.
