Conclusion:-

The Essay

An ant finds a heavy food crumb and drags it towards its nest. On the way, ant slips and stumbles many times and change its course and angle to lift and drag the food.

After persistent struggle of the whole day, it finally reaches its nest. Same is the case with many people who never stop no matter how many

hurdles they face. A person born with silver spoon can never taste the joy of success got through hard experience. Many people find their goals impossible to achieve and leave them fearing failure. Personal doubts, family issues and societal norms add to the misery of such people. But the person with strong self belief tackle with all situations, fails many times and win at the end. A polished person has faced many subs in the journey. A diamond is a piece of coal that did well under pressure.

The attitude of a man decides towards any situation decides its future. Weak people always fear failure and get stressed over them. They stop pursuing their

85

goal which might be one step away.
On the other hand, strong people show positive attitude and learn from each failure until they get success. At last the personality of a man is gets polished and he becomes successful.

Societal norms pose a major hurdle in the path of success. Some people stop chasing their dreams as they become afraid of judgement after failure. A negative mindset also prevails in society that describes the difficulty and impossibility of achieving a certain goal. Therefore society plays a major role in shaping one's journey of life.

Pakistan is also faced with many problems that can stop it from developing globally. If

Date

Pakistan will not handle these issues carefully, it can never make its name in the list of countries which are developed and stable.

It is inferred that, those who handle the pressure and work in silence always emerge as polished and successful people. They beat negative societal norms, hurdles, personal attacks while keeping positive attitude towards life. Such people are called diamonds that were made from coal who never gave up and stood fast under pressure.
