Translation

Literature is not the game of words; instead, it is the reflection of the experience and emotions of humans. When a poet or scholar holds a pen and sketches the picture of his era and remained an example for the upcoming generation. Our great poets like Galib, Iqbal, and Faiz not only do poetry but they also nurtured the soul of customs into words. Unfortunately, today's generation is going away from books and lost in the glory of social media. If we do not revive our customs we will lose our identity. Literature is the only way to reconnect us back to our roots. There is a great

need to develop the interest of reading
in the young generation and introduce
them to the great scholars and
poets, so they remain connected with
their roots.
