If you are irritated by every rub, how will you be ever be polished? ~ Rumi

~ (The Outline) ~

1. Introduction

- 1.1 Meaning of Statement
- 1.2 Attention Grabber
- 1.3 Thesis Statement

2. If you are irritated by every rub, how will you ever be polished on the individual level?

2.1 Struggles in Political arena

- 2.1.1 M. Ali Jinnah, Abraham Lincoln, Rosa Parks, Nelson Mandela

2.2 Struggles in Scientific Field

- 2.2.1 Alan Turing, Stephen Hawking, Marie Curie, Thomas Edison

2.3 Struggles in Literature

- 2.3.2 J.K. Rowling, Faiz Ahmad Faiz, Allama Iqbal

2.4 Struggles in Religion

- 2.4.1 Hazrat Yousaf (AS), Hazrat Yousuf (AS), Hazrat Bilal (RA), Hazrat Yaqub (AS)

2.5 Struggles in Sports

- 2.5.1 Imran Khan, Virat Kohli, Shoaib Akhtar, Ronaldo

2.6. Struggles in Film Industry

2.6.1 Britney Spears, Tom Cruise, BTS

2.7. Struggles in the Business

2.7.1 Steve Jobs, Bill Gates, Mark Zuckerberg

2.8 Struggles in the Central Superior Services Examination

3. If you are irritated by every rub, how will you ever succeed as a nation?

3.1 Western Struggles of the Western World

3.1.1 Germany after WWII

3.1.2 Italy after WWII

3.2 Struggles of the Eastern World

3.2.1 Japan after WWI

3.2.2 China now the one of the largest economies of the world

3.2.3 Pakistan

4. Conclusion

~ (The Essay) ~

The proverb by Rumi "If you are irritated by every rub, how will you ever be polished?" means that no one accomplishes anything if he is disheartened by the small struggles in the way of

success. Japan after the World War I (WWI) was completely destroyed. Two of its major cities Hiroshima and Nagasaki were bombed and these cities became inhabital for many years to come, but today Japan is one of the leading countries in technology. This example of Japan manifest the reality that nobody accomplish something without any struggle so rel resilience duing struggle is very important. This essay would prove the veracity of the statement by illustrating the examples of eminent personalities in the field of politics, science, literature, religion, sports, entertainment, business and CSS examination. In addition to this, examples of the eastern and western nations would also be shown in the essay.

To begin with, on the individual level, no personality could achieve his or her goal if they get disheartened by the struggles in the pursuit of that goal. ^{when} **Mohammad Ali Jinnah** ^{when} went to the England to complete his higher education, his father died. But he did not returned home rather completed his education. On his return, nobody chose him as

his attorney for three years, but he didn't lose hope. He worked day and night and then became one of the most successful and expensive lawyers of the subcontinent. He ~~transfo~~ He used to get ridiculed for his idea of a separate homeland for Muslims, but he worked hard and then on 14th August, 1947, Pakistan became an independent country. Similarly, **Abraham Lincoln** lost eight time elections, but he did not lose ~~hope~~^{hope} and emancipated millions of people from the shackles of slavery. In addition to this, **Rosa Parks** was an African-American seamstress who used to face daily discrimination. One day, she refused to give up her seat for which she got tortured and arrested, but she stood resilient and it was her act that started American Civil Rights Movement and ended the discrimination in United States. Similarly, **Nelson Mandela** resisted apartheid in South Africa. He was imprisoned for 27 twenty seven years of his life, yet he did not lose hope. Hence, such examples proved the statement that

nobody succeeds if one's lose hope in the pursuit of his goal.

Secondly, nobody ~~loses~~ hope succeeds in the scientific field if they lose hope. **Alan Turing** worked endlessly to break the German Enigma code. Despite and saved the lives of the millions of people. Despite his tragic death, he laid the foundation of modern computing and artificial intelligence.

Stephen Hawking also never really lost hope despite being diagnosed by motor neuron disease because of which he was unable to move, he still completed his P.H.D and became one of the most famous theoretical physicists. **Marie Curie** is yet another example of a person who never lost hope despite being facing gender bias in her field. She would not have ^{ever} won two Nobel Prizes if she got irritated by the small struggles in her way. Similarly, **Thomas Edison** was used to be called 'slow' in his class. He was partial deaf, but still he rose to great heights because he believed in the veracity of the statement.

J.K Rowling, Faiz Ahmad Faiz

and Allama Iqbal are the proven example of the statement that nobody shines if they lose hope. **J.K. Rowling** was a single mother struggling to make her ends meet. She used to visit her publishing house, but her story used to get rejected everytime, but she was not afraid of these small struggle. Today, she is the New York's best seller author. Her series "Harry and Potter" is one of the most successful and sold out books of all time. **Faiz Ahmad Faiz** lived in exile for his political views, yet he never stopped writing and today he is considered one of the best Urdu writer. **Allama Iqbal** faced criticisms from many poet and traditional scholars of his time, but he remained strong and worked endlessly and he is called Poet of the East. Britishers also used to call him Sir. Hence, from the lives of these personality personalities that one can never succeed if they get disheartened by the struggles thrown their way.

To conclude, the stories of individuals in different spheres of

life as well as the stories of nations from the East and West prove the veracity of the statement that ~~no~~ nobody can rise to great heights if they lose hope. China after independence asked Pakistan for loan, but now it is one of the largest economies of the world. In 2024 alone, its trade surplus was 1 trillion dollars. which is so it is better to never lose hope during while achieving your goals. As Emily Dickinson beautifully reminds us

*Hope is the thing with feathers
That perches in the soul,*

so this hope when combined by practical action lead a person to great heights.
