

Translate the following paragraphs.

Paragraph 1:

When all the powerful economies of the world took control over the financial system of globe, the economic progress becomes a hope for developing countries. International financial organizations lent loan on strict condition which further worsen the condition of country and to be crushed under high debt instead of making their economy strong. This system give birth to such demographic system where autonomy belongs to wealth and profits instead of military rifles. Today, a big challenge for nations is to maintain a balance between a development and autonomy and could not let their country being pressurized internationally for sacrificing their personal / national benefits.

Paragraph 2:-

Modern technology gives various benefits to humans, but it also ~~raises~~ ^{risks} some questions about personal freedom and humans' grace. In modern digital monitoring era each moment of citizen is being captured in data base. Government and cooperation can convert this huge information into a system or power which can influence humans' behaviour. If this system could not use properly within moral limits, it can compromise the freedom of future generation.
