

Translation 1

When the world's strongest economies made the global financial system under their interests, economic independence became a dream for the ~~under~~ developing countries. International financial institutions impose such conditions ⁱⁿ ~~the~~ the name of debts that ^{push} borrowing countries ~~are going~~ towards more dependence than sustainable progress. This procedure has introduced the new system of ~~Colonial~~ colonialism in which the weapon of ruling are ^{guns} not ~~weapon~~ but currency, interests and markets. Today, the biggest challenge for the nations of world that they maintain a balance between progress and sovereignty which their national interests do not follow international pressure.

Translation 2

While modern technology ^{has} created facility to human life, it has also raised new questions about privacy and human dignity.

In the era of digital supervision, ~~even~~ every moment of citizens are saving in any databases. Governments and corporations are transforming this vast reservoir of information into such means through which human behaviors can be ~~impacted~~ influence. If this situation is not brought into effective legal and moral boundaries, the human of future may be called free but that freedom will be just an illusion.
