Question #1

Precis Writing

Title : Comprehending Knowledge, not
 X Acquiring Knowledge, is Power 0

Gaining Knowledge is always considered as the prime objective of education. However, in reality, contemporary world is suffering due to too much consumption of knowledge without the ability of comprehending it effectively, confining human brains to act as a data bank. In earlier ages, people had limited knowledge but with deep insight. On the other hand, in current times, people are only fond of acquiring vast information without knowing whether it is productive or not. The modern system of education and public discourse related to merely

6

Knowing the facts are defining illustrations in this regard. Moreover, technologies also add fuel to the fire by giving easy access to fabricated information. Having said that, this grim situation can be tackled if educators encourage students to know little but with proper clarity and understanding. Simply put, absence of comprehending the knowledge is actual issue.

Passage words : 320

Precise words : 153

Question #2

1) Answer

The defining issue of modern human existence in relation to time identified by author is that human usually quantify time into various segments ranging from appointments to deadlines.

1 So, as human consciousness develops, he forgets how to differentiate between chronological and psychological time. This diminishes the true essence and value of time, ultimately giving rise to the concept of temporary existence in his mind.

2) Answer

The ancient conception of time delicately differentiates between the times of events and ordinary work, showing the mastery of ancients about knowing the actual meaning of time. On contrary, the modern concept of time is way too mechanical as modern man treats all times equally. As a result, this transformation has led to the loss of understanding the true meaning of time despite accuracy.

3) Answer

By thick time the writer means utilizing the maximum quality time irrespective of its quantity. And it is significant for human flourishing because it provides tranquility, gives stillness, and boosts creativity without confining time to its limits of quantity.

4) Answer

The statement describes the potential of effectively utilizing time. It says that one moment of presence and reflection is way better than multiple moments of bewilderment. So, the gist of ^{The} statement is about living the present moment by presence of mind rather than thinking about how much time is left.

5, Answer

The modern time management and productivity culture have undoubtedly diminished the quality of human life because they have made human too mechanical, leading to exhaustion.

2

In fact, humans have become more interested in quantify the time for productivity, ultimately deviating from quality time. This,

✓

unfortunately, limits their understanding of knowing the actual meaning of time
