

Earth Needs Real Sustainability

Renewable energy source are inflicting more damage to the earth than repairing it. Under the slogan of 'Sustainability', green initiative are used by politicians and corporations as - marketing campaign. Disguised in sustainability, these initiative polluting environment more than traditional ways of product. Green technologies, which require rare earth material, are obtained through rigorous extracting procedures, damaging vegetations, chemical production and making land unlivable place. Furthermore, Electric vehicles^{batteries} manufacturing produce more carbon than traditional engines. Thus onest crisis overcome at cost of producing new crisis, and this all is happening under slogan of Sustainability. Additionally, green energy sources produce more waste and recycling issues, making sustainability destruction in disguise. Therefore, earth need efforts for efficiency, control and humility, not new form of exploitation.

If any professor of Urdu claim that he understands poetry of Ghalib and can explain his poetry, he is, doubtlessly, challenging his intellect. However, if he asked to produce one line like poetry like poetry of Ghalib, he would become helpless, because understanding and creativity are two different things. Wisdom is outcome of understanding, but creativity is originated from a natural capability. States that Ghalib has achieved is not merely an outcome of studying or hard work, but it is the result of unusual intelligence, feelings and it is gift of God. This is the reason that even after centuries his poetry has same affect on heart as it had during his period.
