Question #02

Make a precis of the following passage & suggest a suitable title.

Answer #02

Précis:

Renewable energy is morally required in the public imagination. Every Authority want the use of zero Carbon, despite of its difficulties. Each green energy device has its own cost of rare earth metals which are mined from poor countries. The raw material after making these green products are released to Agricultural land which is now harmed.

Electric vehicals engine use more carbon than traditional engines. Disposing these battery release more Carbon. Plates of wind turbine can not be recycle and Solar panels become toxic waste after decade of service. The construction of green energy products require a lot of fossile fuels. This all green energy is the hypocrisy of market just using green label, they create more hizard to environment. It is a way to trap people philosophically. It is not healing the earth but wounding it by a new name "Green energy".

Title: "Our environmental crisis is mitigated by igniting Another crisis"

Question #07

Translation.

Answer #07

If anyone of Urdu professor claims that he knows Ghalib discourse in a better way and can talk about his technicality, so without any doubt he is pushing his knowledge. But if we ask him that he can tell us one poetic part like that of Ghalib, he will be speechless because understanding and creation are different things. Understanding come with mind while creativity is the result of God gift. The status that Ghalib recieved was not only because of knowledge or hardworking but his numerous creativity and he was a sign of God's creativity. This is the reason that after decades his poetry still feel fresh the way it was in his time.
