

Q:1

Timothy Dexter's rivals advise him to ship Coal to Newcastle. his competitors intention is made his lose in business but he Timothy Dexter's luck Converts everything into profit. his Rivals expects that he will get the lose in business However Situation becomes the opposite about their intention.

Q:2

When his ship reach in England, a miners's ~~sk~~ Strike had stopped local production which was created the shortage. He sold his entire Cargo to generate the massive profit.

Q:3

The relationship between luck and intelligence is that Intelligence has been failed in front of luck. However, the luck can change the destination result and gives a reward. As per author luck bestowed with a massive progress and a mile.

Q:4

Dexter's repeated success is wisdom because he has a little background of education. However, he has a good business analysis skill then he got the second profit. He uses his wisdom. Another time, he shipped cats to the west Indies, where they were used to control rats and he generated the massive profit.

Q:5

In overconfidence genius underestimated the real intelligence. In this case his competitors underestimated Dexter's but he forgets ^{that} everything can change in front of luck. Dexter takes the advantages from underestimated.

(Q:4)

- 4.
- (i) We accepted their offer on the grounds that something is better than nothing.
 - (iii) The bag was so heavy that I could hardly lift it.
 - iv She advised me never to point my finger at anyone.
~~advice~~
 - vi Neither of the two applicants had suitable qualifications.
 - vii Ahsan does not want to, nor does he want a job.

(Q5) (A)

The prisoner looked through the narrow window and said, "They call this justice, yet I have never been heard."

The guard replied softly, "Orders are orders, Sir. Freedom is not decided here."

A journalist outside shouted, "The minister claimed no one is above the law, but who decides what law means what truth is behind bars?"

The cell fell silent. The prisoner smiled sadly and whispered, "They can cage a man, but not his conviction."

(Q6)

1. At this event, she feels like a fish out of water.
2. He decides to give his friend his due.
8. He is in the habit of trying to run back the clock.
3. He was ready to go to the wall for his beliefs.
5. Iqra is a real live wire—She brings ~~energy~~ energy to every meeting.

Title: The Hidden Cost of Green Energy.

Renewable energy is widely celebrated as a moral and environment ~~remedy~~ remedy, yet its reality reveals a troubling ~~contraction~~ contradiction. Technologies like solar panels, wind turbines, and electric vehicles depend on massive extraction of lithium, cobalt and rare-earth minerals often through destructive mining in vulnerable regions such as Congo, Chile, and China. This pursuit of clean energy causes deforestation, pollution, and land degradation. Electric vehicles, despite their green image, generate high carbon emissions during battery production and create recycling challenges, adding to electronic waste. Wind and solar infrastructure also ~~product~~ produces non-recyclable and toxic materials, while relying on fossil fuels for transport and maintenance.
