1. The bag was so heavy that I could hardly lift.
2. Ahsan neither wants to study, nor wants a job.
3. We accepted their offer on the ground of something is better than nothing.
4. An innings is one of the divisions of match during which one team takes its turn to bat.
5. None of the applicants had suitable qualifications.

Q#05 -A

Punctuation.

The prisoner looked through the narrow window and said, "they call this justice, yet I have never been heard." The guard replied softly, orders are orders Sir, freedom isn't decided here. A journalist outside shouted, the minister claimed no one is above the law, but who decides. what law means? when truth is behind bars? The cell fell silent, the prisoner smiled faintly and whispered, they can cage a man, but not his conviction.

(B)

Rewrite

Tehmina ~~appted~~ to a bank for a loan.
 She died of starvation.
 Look at the left and you will see an ~~detention~~ detention.
 We saw a movie in the theatre.
 We all sat at the dinner table.

Q#06

His hardwork just put back the clock.

Q#07

1

Any professor of urdu who ^{understands} claims that he ↓ better the poetry of Ghalib and he can win the event

by making ^{useful} conversation on the literary characteristics of it.

In fact, he is showing his educational capability, But if he is demanded ^{to} ~~with~~ say even a single lyric like Ghalib, ^{id}, he would fail (be helpless) to do so.

Because intellect and creativity are two different things.

Intellect is production of wisdom, however, creativity is of hunch feeling and insight. The ^{status} ~~standard~~

that Ghalib got, cannot be

achieved through ^{either} knowledge ~~and~~ or hardwork only, but ^{studying} through an

outstanding intelligence, feeling ^{as sign of} and blessing of Almighty Allah.

That is why, his poetry impacts the heart today, in a way similar to his age.

Q#03

Comprehension Passage

(1)

Dexter's rivals advised him to ship Coal to Newcastle, because they were tired of his success and they decided to humiliate him. They expected him to lose everything, but outcome was entirely different. It was because at the eleventh hour, when the ship reached to England, a miner's strike had stopped local production and there was sudden shortage. And Dexter sold his entire cargo then, which proved a great victory for him. Hence the plan of Dexter's rivals got devastated and Dexter's got great victory.

(2)

An unexpected event that turned Dexter's foolish coal venture into success was a miner's strike which stopped local production of coal. Due to this,

there was shortage of supply of coal
And Dexter sold his entire cargo to
for a massive profit. Hence this
Dexter's foolish venture turned into a
profitable success by giving him great victory.

(3)

The author implies that this
was not always the luck but it was
his capability and intelligence also.
Because luck can give benefit for
once, twice or few more, but when
we become successful in all attempts
it is never because of luck only. Hence
author says that ~~there~~ there was something about
the luck in Dexter's life.

(4)

Dexter repeated success in turning
modesty into profit by using his
formal education, his confidence and
his state of being underestimated.
Because when we get underestimated,
it turns out as an opportunity for
us to prove our strength. Hence

by using education, confidence and undestimation he turned his meekness into success.

(5)

About human perception of foolishness and geniusness it can be inferred that sometimes human perception ^{things} only ~~try~~ from a single dimension or surface level thinking. But actually "foolishness and geniusness" is a concept of multi-dimensions which can not be judged on surface level thinking and analysis. Hence, from Dexter's rivals, perception of human about foolishness and geniusness can be seen a unilateral or surface level sometimes.

Renewable Energy Injuring the Planet

Renewable energy is considered as antidote ^{to} non-renewable energy

Influencers use decent terms exhibiting it as healer but is injuring the planet. All renewable energy sources emit hidden cost such as costly extracted rare earth metals and poisoning the land, shifting one crisis to another form. Electric vehicles use short life span & hardly recyclable batteries that emit carbon and other waste, resulting in extraction pollution and waste. Turbines utilize non-recyclable composites, solar panels ^{produce toxic} create waste, being dependent on fossil fuels making zero emission a deception. It indicates technological as well as moral fall. Humans are impressed by turning environmentalism into marketism. True path lies in restraint, efficiency and system. Renewable energy is wounding the planet.
